

Fish Committee Recommendations  
regarding the  
Hatchery Policy (C-3619) Review  
*December 3, 2020*

1. Adopt a revised schedule (see draft below).
2. Provide the following guidance on policy language development to the Writing Work Group.
  - a. Incorporate appropriate suggestions for grammatic, wording, and readability improvements and technical lapses, such as verbiage duplications and Appendix 3 not including a schedule.
  - b. Add clarifying or additional descriptive language regarding limits to increases in hatchery production that would be enabled by changes currently being considered to Policy C-3619, and the process by which any increase in hatchery production might occur.
  - c. Provide additional language responsive to the Tribal input from the December 2 Tribal Co-Manager meeting on the November 6 public review draft.
  - d. Consider adding clarifying or more descriptive language consistent with the policy intent expressed by the Commission to date.
