# # 1. Remove Char species from trout definition

## Type of Rule Change Proposal

Statewide Conservation

## Short Description

Remove Bull Trout, Dolly Varden, Eastern Brook Trout, and Lake Trout from trout definition; create separate definitions for “trout” and “char”.

## Explanation

Currently as defined in WAC (220-300-160 ((34)) "Trout" means brown trout, bull trout, cutthroat trout, Dolly Varden, Eastern brook trout, golden trout, grayling, lake trout, rainbow trout (except steelhead), tiger trout and, in WAC 220-312-010 through 220-312-060, salmon from waters designated as "landlocked salmon rules apply". Separating the definition for “Trout” and “char” will more clearly define regulations and management intent in waterbodies with special rules.

### Proposed Changes:

Corrected 220-300-160 (34) “Trout” means brown trout, ~~bull trout~~, cutthroat trout, ~~Dolly Varden~~, ~~Eastern brook trout~~, golden trout, grayling, ~~lake trout~~, rainbow trout (except steelhead), tiger trout, and in WAC 220-312-010 through 220-312-060, salmon from waters designated as “landlocked salmon rules apply.”

New 220-300-160 (35) “Char” means bull trout, Dolly Varden, Eastern brook trout, and lake trout.

New 220-310-090 Lake Trout                      No Daily Limit No Size Restriction

Corrected 220-310-090 Trout (~~except Eastern Brook trout and Kokanee~~)

## WAC's

220-310-090 – Game fish possession limits and size limits

## Written Testimony (58 comments)

### Support (22):

Comments included: “I think this will help make it more clear that the taking of bull trout is not allowed in areas where trout take is allowed.” and “I support this rule, and further protections for native Bull Trout and Dolly Varden. This rule change should be accompanied by more liberal harvest opportunities for invasive brook trout and lake trout wherever they reside.”

### Oppose (19):

Comments included: “Is going to make the regulations more complex and confusing”, and “Seems like another way to keep lakes and rivers closed.”

**Public Hearing (comments): None**

**Modifications of Proposed Rule (CR 102): None**

**Staff Recommendation: Adopt**

## # 2. Clarifying Single hook definition for Selective Gear Rule, Whitefish Gear, and Fly Fishing

### Type of Rule Change Proposal

Statewide Clarification

### Short Description

Clarify the intent of the “single point hook” as listed in definitions for Selective Gear Rules, Whitefish Gear Rules, or Fly Fishing Rules.

### Explanation

This definition was mistakenly changed during rule simplification. Intent of the Selective Gear Rules, Whitefish Gear Rules, and Fly Fishing Rule is to require that anglers use a single-point or a single-point barbless hook. The current wording implies that anglers can use a treble hook.

#### *Proposed Changes:*

*Corrected 220-300-160 (26) "Selective gear rules" means terminal fishing gear is limited to artificial flies with barbless ~~single-hooks~~ single-point hooks or lures with barbless ~~single-hooks~~ single-point hooks and bait is prohibited. Up to three hooks may be used. Only knotless nets may be used to land fish. In waters under selective gear rules, fish may be released until the daily limit is retained.*

*Corrected 220-300-160 (35) "Whitefish gear rules" means terminal fishing gear is restricted to one ~~single-hook~~ single-point hook, maximum hook size three-sixteenths inch point to shank (hook size 14), and bait is allowed. All species: Release all fish except whitefish.*

*Corrected 220-310-150 (1) (d) Not more than two flies each with a barbless ~~single-hook~~ single-point hook.*

### WAC's

220-300-160 (35) – Definitions-Personal-use fishing - Whitefish gear rules

### Written Testimony (20 comments)

#### Support (17)

Comment included: “Adding this clarification gets to the intent of Selective Gear rules and will ensure the protection of the species where these regulations are present” and “Treble hooks should not be allowed anywhere except for when targeting bottomfish in the ocean. Single hooks are more effective and less damaging.”

#### Oppose (3):

Comment included: “Don't support. While I do agree that there should be regulations like this made, it should only be in some specific places. Trebles are on a lot of different bass lures and trout trolling lures. This would greatly decrease the popularity among anglers, and overall make the department lose money.”

**Public Hearing (comments): None**  
**Modifications of Proposed Rule (CR 102): None**  
**Staff Recommendation: Adopt**

### **# 3. Require separate containers for each smelt fisher**

#### **Type of Rule Change Proposal**

Recreational Forage Fishing Rule Modification

#### **Short Description**

Proposal would require each smelt (any species) fisher to use a separate container; would apply to smelt fisheries in both freshwater and marine waters and all methods of harvest, i.e. dipnet and jig.

#### **Explanation**

Applies as emergency rules during the Eulachon fishery on the Cowlitz River to increase accountability of harvest and would be applied statewide to aid in enforcing daily catch limits and tracking harvest. This proposal would expand the rule to all smelt fisheries statewide, including the Cowlitz River for consistency.

#### *Proposed Change:*

*Updated 220-315-040 Smelt—Unlawful acts. It shall be unlawful for any person taking smelt for personal use to fail to retain all smelt caught up to the daily limit. In the field, each person taking smelt must use a separate container to hold their catch and the container must be in the harvester's presence or identified with the harvester's name.*

## # 4. Sea cucumber recreational dive harvest closures

### Type of Rule Change Proposal

Recreational Shellfish Conservation

### Short Description

Close marine areas 8-1, 8-2, 10 and part of 9 to recreational dive harvest of sea cucumber and establish a statewide seasonal spawning closure for recreational sea cucumber harvest from March 1 – June 30.

### Explanation

Due to conservation concerns, District 3 was closed to commercial sea cucumber harvest in 2014 by co-manager agreement and a seasonal spawning closure period was also instituted for commercial fisheries statewide in 2021. Closing the recreational sea cucumber fishery in district 3 is needed to allow cucumber populations to recover and align the current regulations with comanager agreements. This proposal further establishes a seasonal spawning closure for recreational sea cucumber harvest statewide from March 1 through June 30, to protect cucumber reproductive opportunity and align with co-manager agreements. Finally, this proposal corrects an incorrect geographical coordinate reference and makes one additional administrative change (text formatting).

### Proposed Change:

## # 5. Shellfish possession limit language

### Type of Rule Change Proposal

Recreational Shellfish Simplification

### Short Description

Clarify possession limits of shellfish through consistent language.

### Explanation

Currently there are conflicting definitions for possession limits in personal-use/recreational shellfish fisheries. This rule will align the possession limit definitions and include the language “while in the field or in transit” as defined in WAC 220-300-160.

"Possession limit" means the number of daily limits allowed to be retained in the field or in transit.

#### *Proposed change*

*220-305-110 (1) The personal-use possession limit of food fish shall include all fresh, frozen, canned and other processed fish in the immediate possession of an individual **while in the field or in transit**, together with fish held **for him** by a custom canner or processor, and fish consigned **by him** for processing, preserving, storing, or transporting to a place other than where such food fish were taken.*

*220-330-010 It is unlawful for any one person to possess **at any time** more than one daily limit of fresh shellfish **while in the field or in transit**. Additional shellfish may be possessed in a frozen or processed form. It is unlawful for any one person to take more than the following quantities of shellfish in any one day for personal use or take or possess shellfish that measure less than the caliper measurement described in this section. Caliper measurement is defined as a linear measurement when both points of a movable caliper are touching the shell of the shellfish. A fixed caliper gauge is the linear distance between points of the caliper gauge or the diameter of a circular gauge.*

## # 6. Puget Sound spot shrimp head retention rule

### Type of Rule Change Proposal

Recreational Shellfish Simplification

### Short Description

Modify the daily possession limit for shrimp after May 31 to no longer require the retention of spot shrimp heads when only spot shrimp are being retained.

### Explanation

The current daily possession limit for all shrimp after May 31 is 10 pounds (whole shrimp) with a maximum of 80 spot shrimp as part of the 10-pound limit. Shrimp heads may be removed but are required to be retained after May 31 until ashore and finished fishing for the day. This rule proposal will no longer require the retention of spot shrimp heads when only spot shrimp are being retained. If any other shrimp species are being retained as part of the daily limit, shrimp heads for all species will still be required and count towards the 10-pound daily limit.

### Proposed Change:

220-330-010 (11) Shrimp:

(a) In Marine Areas 1, 2, and 3 and Marine Area 4 west of the Bonilla-Tatoosh line: Daily total weight limit is 25 pounds, maximum of 200 spot shrimp as part of the 25-pound limit.

(b)(i) In Marine Area 4 east of the Bonilla-Tatoosh line and Marine Areas 5, 6, 7, 8-1, 8-2, 9, 10, 11, 12, and 13: ~~First Saturday in May through May 31, daily~~ Daily limit is 80 spot shrimp; ~~during all other open periods with a daily total daily weight limit is of~~ 10 pounds (whole shrimp) all species combined, ~~maximum of 80 spot shrimp as part of the 10-pound limit.~~

(ii) ~~If retaining non-spot shrimp, Shrimp heads may be removed, but after May 31 all shrimp heads (spot and non-spot) must be retained in the field until ashore and finished fishing for the day.~~

Comments included: " Strongly support. This is a useful rule simplification, and few shrimpers are aware of or follow this existing rule at present." and "Agree in general, I think its still much more clear to just have the "count" limit and do away with the "10lb" clauses. Its insanelly hard to keep track of the weight for the fisherman and the enforcement in the field. If you are worried about double dipping with spot and/or coon striped just make a total daily shrimp limit. Like we do with salmon and bottom fish."

## # 7. Billy's Pond (Yakima Co.)

### Type of Rule Change Proposal

East Side Lake Recreational Fishing Simplification

### Short Description

Return this small, artificial pond in Yakima to Statewide Rules.

### Explanation

This small pond located in Yakima was added to freshwater special rules in 2020 as part of House Bill 1579 that directed the Washington Fish and Wildlife Commission to “adopt rules to liberalize bag limits” for non-native “bass, walleye and channel catfish in all anadromous waters of the state in order to reduce the predation risk to salmon smolts. However, the pond is located on city property without public access. As part of the 2020 commission process, waterbodies without public access were not included in the special rules designation related to the legislation. To be consistent, the pond should be removed from the list of waters with special rules.

### Proposed Change:

~~Removed (27) **Billy's Acclimation Pond (Yakima County):** Game fish: Statewide minimum length/daily limit, except:~~

~~(a) Largemouth bass: Daily limit 10; no minimum length; only largemouth bass under 12 inches may be retained, except 1 over 17 inches may be retained.~~

~~(b) Smallmouth bass: Daily limit 15; no minimum length; only 1 smallmouth bass over 14 inches may be retained.~~

~~(c) Channel catfish: Daily limit 10; no size restriction.~~

~~(d) Walleye: Daily limit 16; only 1 walleye over 22 inches may be retained.~~

## # 8. Lake Wenatchee kokanee fishing closure

### Type of Rule Change Proposal

East side lake Conservation

### Short Description

Close kokanee fishing / disallow retention in Lake Wenatchee.

### Explanation:

In 2018, the daily bag limits for trout and kokanee were separated under the Statewide General Rules. This change resulted in kokanee retention being allowed under the "Other Game Fish" (year-round and statewide minimum size/daily limit) section of the current WAC for Lake Wenatchee. There is no known kokanee present in Lake Wenatchee, just juvenile and adult Sockeye. Sockeye retention is only opened under emergency rule when there is a harvestable surplus above spawner escapement targets. Further, the tackle and fishing tactic used for kokanee also encounters ESA listed spring Chinook, steelhead, and Bull Trout and unlisted Sockeye. Region 2 Police have contacted several anglers on Lake Wenatchee who claim to be fishing for kokanee, but are targeting Sockeye, Chinook, steelhead, and Bull Trout. This rule proposal closes that loophole and eliminates the unauthorized take of those ESA-listed species.

### Proposed Change

(362) **Wenatchee Lake (Chelan County):**

(a) *Selective gear rules.*

(b) *Game fish: Statewide minimum length/daily limit, except:*

(i) *Release trout.*

(ii) *Steelhead: Closed to fishing.*

## # 9. Bogachiel Hatchery Pond South Closure

### Type of Rule Change Proposal

West side lake simplification

### Short Description

Revert the status of this pond from “open for fishing” to “Closed waters”.

### Explanation

Trout planting was discontinued to Wentworth Lake in Clallam County due to access changes. The resulting empty rearing pond at the hatchery was used to provide additional fishing opportunity. In 2020, needed improvements to the pond were made for the Bogachiel Wild broodstock program for rearing and releasing. This made the pond no longer available for Rainbows. This pond will remain set up for rearing Juveniles with bird netting. The rainbow trout formally destined for Calawah South Pond and Bogachiel Pond are being planted into Wentworth Lake and Leland Lake.

## # 10. Carlisle Lake (Lewis Co.) season change

### Type of Rule Change Proposal

West side lake opportunity

### Short Description

Open Carlisle Lake to year-round angling, with landlocked salmon rules.

### Explanation

During the 2017-2018 Rule Simplification process, the game fish season was shortened from 'the fourth Saturday in April through the last day in February' to 'the fourth Saturday in April through October 31'. This rule change was found to not support the fishery goal of maximizing harvest opportunity for catchable hatchery trout; the rule change resulted in lost opportunity for anglers to access to a long-established winter brood plant that occurs annually in December or January. Since 2018, the Onalaska Alliance (a local non-profit coordinating the efforts to improve the recreational facilities and opportunities in the immediate area around Carlisle Lake) has submitted repeated requests to the Director's office and regional fish management requesting that the lake be opened for year-round angling. Region 5 fish management staff support this proposal, that would allow anglers to access a catchable trout fishery during additional months of the year.

### Proposed Change:

Corrected 220-312-030 (8) **Carlisle Lake (Lewis County):**

(a) Open ~~the fourth Saturday in April through October 31.~~ Year-round.

(b) Landlocked salmon rules.

# # 11. Release cutthroat trout and wild rainbow trout in select rivers in Kitsap, Mason, Pierce, and Thurston counties.

## Type of Rule Change Proposal

Puget Sound Rivers Conservation

## Short Description

Select rivers in Kitsap, Mason, Pierce, and Thurston counties would require release of all cutthroat trout and wild rainbow trout.

## Explanation

This proposal is based on a conservation concern for populations of wild trout in independent tributaries of South Puget Sound. Data from coastal cutthroat stock assessment work conducted in South Puget Sound indicates many cutthroat populations in small independent tributaries consist of less than 30 individuals, and wild rainbow trout populations are typically even smaller. The small size of these populations makes them vulnerable to over harvest at even low levels of retention especially during the summer period when anadromous trout are congregating in freshwater systems for thermal refuge. This rule change will help ensure the sustainability of wild trout populations in the affected tributaries while maintaining fishing opportunity.

Support (13):

Comment included: "These fish populations should not be fished in any form or fashion. They get plenty of bird and small mammal predation as it is. Selective or non-selective fisheries only add to their demise" and "Why limit C&R regulations on wild cutthroat and rainbow trout populations to only south puget sound tributaries where data is available but continue allowing retention in north sound tributaries where data is not available? "

Oppose (5):

Comment included: "Then just close the rivers." " In the rivers I've fished with or without the 14" minimum, I've never caught a cutthroat or rainbow over 10". " Unless these streams receive a ton of fishing pressure (which I would assume most do not), I would continue to allow harvest with the size restrictions currently in place."

## # 12. Aligning Snake River Steelhead Rules with Idaho

### Type of Rule Change Proposal

East side Rivers Simplification

### Short Description

Align Steelhead rules with Idaho on concurrent waters of the Snake River.

### Explanation

Washington State has entered into an agreement with Idaho to maintain concurrent steelhead fishing rules in the main stem of the Snake River. Along with maintaining agreed upon rules, This change will also provide a conservation gain for the steelhead stocks on the Snake river.

#### Proposed Change:

## # 13. Closing Steelhead fishing on the Methow River

### Type of Rule Change Proposal

East side river Conservation

### Short Description

Add "Steelhead: Closed to fishing" to all sections of the Methow River.

### Explanation

Steelhead (both hatchery and wild) returning to the Methow River are ESA-listed. Under the current WAC, steelhead can technically be caught-and-released under the "All Game Fish" listing. Steelhead are listed as closed in neighboring Okanogan River and mainstem Columbia River. This issue was created during Rule Simplification when the Agency created the statewide general rule of "Open during salmon and game fish seasons unless as otherwise listed".

### Proposed Change:

Updated 220-312-050 (218) **Methow River (Okanogan County):**

(a) From mouth to County Road 1535 (Burma Road) Bridge: Closed waters.

### Support (5):

Comment included: "I support the closure as long as hatcheries also stop releasing steelhead. Hatchery steelhead have been shown to be detrimental to wild steelhead populations. If we're going to keep releasing hatchery steelhead then we should be allowed to fish for them."

### Oppose (9):

Comment included: "Why release hatchery fish then not allow the public to fish for them. Seems pretty silly to me" and "Oppose. Increase hatchery output to offer more angling opportunity", "Catch and release has very low mortality. At least keep catch and release open as steelhead opportunity is getting worse each year."

## # 14. Increased angling opportunity in the Muddy River (Lewis River tributary)

### Type of Rule Change Proposal

Columbia Basin River Conservation

### Short Description

Increase angling opportunity by moving the Muddy River to the statewide stream rules, with selective gear and release of all fish.

### Explanation

Current rules include the Muddy River with mainstem and tributary reaches downstream that have selective gear rules, release of wild trout regulations and a July 16<sup>th</sup> closure intended to provide protection to bull trout that stage in these areas. This rule change would align Muddy River regulations with the mainstem and tributary reaches upstream, which also have selective gear rules and a requirement to release all fish, but follow the statewide standard fishing period of Saturday before Memorial Day through October 15<sup>th</sup>. This rule change would provide a longer fishing period in the Muddy River while still providing protection for bull trout through the requirement to release all fish (i.e., catch and release).

### Proposed Change:

Updated 220-312-030 (44) **Lewis River (Clark County):**

(i) From Eagle Cliff Bridge up to ~~and including~~ Muddy River, including *all* tributaries *except the Muddy River*:

(i) Selective gear rules.

(ii) Open the Saturday before Memorial Day through July 15.

(iii) Game fish: Statewide minimum length/daily limit, except:

(A) Trout: Daily limit 10; minimum length 8 inches.

(B) Release wild trout.

(j) From ~~above the~~ Muddy River to the lower falls and tributaries (*including the Muddy River*):

(i) Selective gear rules.

(ii) Release all fish.

# # 15. Adding jointly managed off-channel selected areas to WAC/Pamphlet

## Type of Rule Change Proposal

Columbia Basin River Simplification

## Short Description

Adds jointly managed (by Oregon and Washington) off-channel waters in the Columbia River to WAC/Pamphlet. These locations are Blind Slough and Knappa Slough.

## Explanation

This rule would create defined waters that allow Catch Record Card areas to be created in order to improve catch accounting and allow Washington anglers and enforcement to understand the fishing regulations in concurrently managed off-channel areas on the Oregon side of the river. Blind Slough and Knappa Slough are the two water bodies being considered to create regulations that would correspond with the Oregon rules (concurrent waters).

## Proposed Change:

- The Blind Slough Select Area is defined as waters of Blind Slough and Gnat Creek from a north-south line represented by regulatory markers at the mouth of Blind Slough upstream to a regulatory marker in Gnat Creek located approximately 0.5 miles southeasterly (upstream) of the Barendse Road Bridge.
- The Knappa Slough Select Area is defined as waters of Knappa Slough, Calendar Slough, and Big Creek Slough bounded to the north (upstream) by a line projecting from a regulatory marker on the eastern shore of Karlson Island to the northernmost regulatory marker at the mouth of Blind Slough and bounded to the west (downstream) by a line projecting southerly from a regulatory marker on the southwestern tip of Karlson Island through regulatory markers on the western tips of Minaker Island to a marker on the Oregon shore.
  - Gamefish: Statewide minimum length/daily limit, except: Release trout.
  - Salmon: Daily limit is 2 adult salmon or 2 steelhead or 1 of each and 5 jacks. No more than 2 daily jack limits in possession. 12" minimum size. Release all salmon other than hatchery Chinook, hatchery coho and hatchery steelhead. Use of barbed hooks allowed.
  - Shad: Open year-round.

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

**WAC 220-300-160**

- 1) This rule proposal would remove Bull Trout, Dolly Varden, Eastern Brook Trout, and Lake Trout from the trout definition and create separate definitions for "trout" and "char".
- 2) This rule proposal would clarify the intent of the "single point hook" as listed in definitions for Selective Gear Rules or Whitefish Gear Rules.

**WAC 220-310-150** This rule proposal would clarify the intent of the "single point hook" as listed in definitions for fly fishing.

**WAC 220-310-090** This rule proposal will list Lake Trout with No Daily Limit/No Size Restriction.

**WAC 220-315-040** This rule proposal will require each limit of smelt (any species) to be kept in separate containers. This rule would apply to smelt fisheries in both freshwater and marine waters and all methods of harvest, i.e. dipnet and jig.

**WAC 220-330-090** This rule proposal will close all of District 3 (Marine areas 8-1, 8-2, 10 and part of 9) to recreational dive harvest of Sea Cucumber and establish a statewide seasonal spawning closure for recreational sea cucumber harvest.

**WAC 220-305-110** This rule proposal will clarify possession limits of shellfish through consistent language.

**WAC 220-330-010**

- 1) This rule proposal will clarify possession limits of shellfish through consistent language.
- 2) This proposed rule will modify the daily possession limit for shrimp after May 31 to no longer require the retention of spot shrimp heads when only spot shrimp are being retained.

**WAC 220-312-050**

- 1) Reverts Billy's Pond, a small pond located in Yakima, to Statewide Rules.
- 2) This rule proposal would close kokanee fishing/retaining rules on Lake Wenatchee.
- 3) This proposal would align Steelhead rules with Snake River concurrent waters with Idaho
- 4) Adding "Steelhead Closed" to all sections of the Methow River.

**WAC 220-312-020** This proposal will change the status of this pond from "open for fishing" to "Closed waters". A pond that had been open for fishing is now being utilized for hatchery rearing.

**WAC 220-312-030**

- 1) This proposal would open Carlisle Lake to year-round angling, with landlocked salmon rules.
- 2) Changes rules for the Muddy River from *selective gear and release of wild trout from Saturday before Memorial Day through July 15<sup>th</sup>* to instead be *selective gear and release all fish from Saturday before Memorial Day through October 31<sup>st</sup>*.

**WAC 220-312-040** This proposal will change rules on select rivers in Kitsap, Mason, Pierce County, and Thurston County from the statewide daily limit with a minimum size of 14" for cutthroat trout and wild rainbow trout to non-retention of cutthroat trout and wild rainbow trout.

**WAC 220-312-060** Adds jointly (Oregon and Washington) managed off-channel waters in the Columbia River to WAC/Pamphlet. These locations are Blind Slough and Knappa Slough. This will be included in the WAC 220-312-060 within the 'From a line at Rocky Point on the Washington bank through Red Buoy 44 to red navigation marker 2 at Tongue Point on the Oregon bank upstream to a line at the west end of Puget Island projected from green navigation marker 39 on the Washington bank to green navigation marker 41, then to red navigation marker 42, and terminating at red navigation marker 44A on the Oregon bank' section.

**Reasons supporting proposal:** The department is considering amendments to several recreational fishing regulations including shellfish, gamefish, and forage fish. This rule making is addressing critical conservation objectives with changes to Sea Cucumber harvest seasons, changes to Cutthroat trout retention in several streams through areas of Puget Sound and Hood Canal, particularly around the Kitsap Peninsula and south Sound streams, and closes steelhead fishing on the Methow river. This rule making provides harvest opportunities consistent with conservation objectives by opening Carlisle Lake for year-round fishing. Also included in these proposals are some clarification and simplification changes that include separate containers for smelt, shrimp head retention changes, clarification of "single-point hooks, concurrent rule reflections for steelhead season on the Snake river with Idaho and clarifying section of the Columbia with Catch Record Card locations

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.025(4) –This chapter does not apply to the adoption of a rule if an agency is able to demonstrate that the proposed rule does not affect small businesses.

Explanation of exemptions, if necessary: The department is exempt from the requirements of RCW Chapter 19.85 because the proposed recreational fishing rules do not regulate small businesses; rather, the department’s proposed fishing rules open fishing seasons, and provide fishing opportunity, that would otherwise be closed. In doing so, the proposed rules regulate individuals who undertake recreational fishing activities. The proposed statewide recreational rules simply govern the time, place and manner for individuals who want to enjoy the recreational fishing opportunities provided. While recreational fisheries contribute to statewide or local economies, and while those economic effects are part of the department’s consideration in opening fisheries, the economic effect of different possible recreational fishery packages does not constitute the direct imposition of any regulatory compliance costs on small businesses that supply recreational fishers, or that benefit from the State’s decision to open such fisheries.

**COMPLETE THIS SECTION ONLY IF NO EXEMPTION APPLIES**

If the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

- No Briefly summarize the agency’s analysis showing how costs were calculated. \_\_\_\_\_
- Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses, and a small business economic impact statement is required. Insert statement here:

AMENDATORY SECTION (Amending WSR 21-14-067, filed 7/2/21, effective 8/2/21)

**WAC 220-312-060 Freshwater exceptions to statewide rules—Columbia.** The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

- (1) **General Columbia River rules:**
  - (a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.
    - (i) Anglers must comply with the fishing regulations of the state in which they are fishing.

(ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.

(iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.

(b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.

(c) Salmon and trout handling rules provided in WAC 220-310-100 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-310-100 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).

(d) From Buoy 10 to the Washington/Oregon border:

(i) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.
