Fish and Wildlife Commission Presentation Summary Sheet

Meeting date:

10/7/2022

Agenda item:

Chelan River Rule Making (Decision)

Presenter(s):

Craig Burley, Fish Program Deputy Director, Olympia

Background summary:

On January 11, 2022, WDFW received a petition from the public requesting the Commission to open the currently closed upper portion of the Chelan River to fishing. On February 25, 2022, the Commission accepted the petition and directed WDFW to initiate rule making. WDFW filed the proposed fishing rule (i.e., CR-102) on July 20, 2022 with the Code Reviser Office. There was a public comment period open from July 21, 2022 through September 24, 2022. A staff briefing and public hearing was held during the Commission meeting on September 23, 2022. The Commission will render a decision on the proposed fishing rule during this meeting.

Staff recommendation:

Deny proposed rule as described in the CR-102 and retain the closed fishing rule on the Upper Chelan River.

Policy issue(s) and expected outcome:

No policy issue(s) anticipated. The expected outcome is to adopt the staff recommendation.

Fiscal impacts of agency implementation:

No fiscal impact(s) anticipated.

Public involvement process used and what you learned:

A public comment period opened on July 21, 2022 and concluded on September 24, 2022. This included a virtual public meeting held on September 14, 2022 and public hearing during the September 23, 2022 Commission meeting. The public could submit comments electronically (online), verbally (voicemail), during the virtual public meeting, and at the public hearing. A total of 14 comments were received. Nine were submitted online, one by voicemail, three during the virtual public meeting, and one at the public hearing. Twelve comments were in support of opening the Upper Chelan River to fishing. Two comments opposed opening the Upper Chelan River to fishing. The comment of greatest significance was a letter (attached) received from Chelan PUD who opposed opening the Upper Chelan River to fishing. Chelan PUD owns all the bed lands and a majority of the shorelands of the Chelan River. In their letter, Chelan PUD states the public is prohibited from

accessing the riverbank and riverbed. This effectively eliminates angler access to and recreational fishing on the Upper Chelan River. If WDFW amends the fishing regulations to allow fishing in this stretch of the river, that will lead to direct conflicts between the public and the Chelan PUD as the landowner. Unless and until the PUD is willing to open some portion of its property to public access, a decision over which WDFW has no authority, there is no benefit to amending the fishing regulations. As a result, WDFW staff are recommending that the proposed rule be denied.

Action requested and/or proposed next steps:

Deny the proposed fishing rule for the Upper Chelan River

Draft motion language:

- 1.) I move to deny the proposed fishing rule for the Upper Chelan River
 - 2.) Is there a "second"
 - 3.) If yes, then:
-

- a) The motion maker discusses the basis for denying the proposed fishing rule
 - b) Other Commissioners may discuss their views on the motion
 - c) Amendments, if any, to the original motion may be made
 - d) A final motion (original or modified) is identified
 - e) Commission votes to approve or deny the final motion
-

Post decision communications plan:

WDFW will notify the petitioner of the Commission's decision following the October 7, 2022 meeting.

Re: Comment Opposing Proposed Rulemaking to Open the Chelan River to Fishing (WSR 22-15-111)

Dear Commissioner Linville:

Thank you for the opportunity to comment on the Washington Fish and Wildlife Commission (Commission) proposed rulemaking to open the Chelan River to recreational fishing upstream from the Public Utility District No. 1 of Chelan County (Chelan PUD) safety barrier to Lake Chelan. The area proposed to be opened is located within the project boundary of Chelan PUD’s Lake Chelan Hydroelectric Project, Federal Energy Regulatory Commission (FERC) No. 637 (Lake Chelan Project). In addition, Chelan PUD owns most of the property surrounding the Chelan River. As such, Chelan PUD invests significantly in public safety on Chelan PUD property in the areas surrounding the Chelan River and has a long history of protecting recreational values related to the Lake Chelan Project. To protect public safety, as explained below, Chelan PUD respectfully opposes opening the Chelan River to fishing.

On April 6, 2022, Chelan PUD submitted a letter to the Commission regarding the first hearing on this petition and expressed serious concerns regarding public safety in the Chelan River if the upper section of the river is opened to fishing. Since construction of the dam in the 1920s, public access to the river has been restricted because of safety concerns associated with project operations.

Due to the many public safety hazards in the Chelan River, the Chelan River and the surrounding Chelan PUD lands are not open to the public with two exceptions: upland trails that do not contact the river and are closely managed, and a FERC-mandated whitewater boating event. Upland areas below the dam (Reach 1) contain publicly accessible trails. The trails were located and signed carefully to protect the public from encountering the unpredictable flows of the Chelan River and the geological hazards of the area. Whitewater boating occurs on one weekend in September each year. The event is for highly experienced Class V boaters well versed in self-rescue and climbing. This run is considered one of the most challenging runs in the nation. Even with a high level of danger inherent in whitewater boating, the event has been cancelled in

some recent years due to geological instabilities in the Chelan River Gorge. Except for these two uses, Chelan PUD manages owned property in the area as to prevent public access due to safety hazards.

Chelan PUD has posted dozens of no trespassing signs within the Chelan River area warning of dangerous terrain, unpredictable flows, and the potential for entrapment and drowning. Operations of the Lake Chelan Project are directed by our FERC license and can, at times, result in rapidly changing river flow conditions. These conditions are often unpredictable and can occur to manage the elevation of Lake Chelan and to protect the integrity of the dam and powerhouse. A large area in the Chelan River Gorge has been identified where slopes are unstable; Chelan PUD engineers monitor several landslide areas where large areas of hillside and rock fall could occur at any time, without warning. This presents potential danger for anyone in and around those areas. These features, combined with the potential of rapidly fluctuating flows and swift currents, create extremely hazardous conditions to anyone recreating in the Chelan River area.

The Chelan County Fire Protection District has long expressed concern (letter attached) to Chelan PUD's Board of Commissioners about the safety of the Chelan River Gorge area, indicating that a possible rescue operation in the area would place department personnel in unnecessary risk and urged Chelan PUD to prevent access. Three successive Chelan County Sheriffs also wrote letters expressing concerns about the dangers inherent in the area and the difficulty of rescue or recovery in such a high-risk area (most recent letter attached).

Chelan PUD would like to reiterate our serious concerns with allowing recreational fishing in the Chelan River. The existence of extremely hazardous features and conditions that exist in the upper river prevent safe public access. Chelan PUD is concerned that permitting fishing by rulemaking would encourage members of the public to ignore no trespassing signs and endanger themselves on the river. Please see the attached *Wenatchee World* article from 2020 that highlights a recent example of the hazards in this area. Chelan PUD urges the Commission to deny the petition to open the upper Chelan River to fishing to ensure the safety of the public and first responders.

Thank you for the opportunity to share our concerns. Please feel free to contact me if you have any questions.

Sincerely,

Justin Erickson

Re: Emergency Response and Rescue within the Chelan Gorge

To whom it may concern:

In review of the whitewater boating component for the new license to operate Lake Chelan Dam, Chelan County Fire District 7 Board of Commissioners and Fire Chief oppose whitewater rafting and any other type of recreational activity in the Chelan Gorge.

The dangers and risks of a rescue performed in the Chelan Gorge by Fire District personnel are elevated hazards in which our volunteers are not trained in whitewater rafting rescues.

In the event an incident takes place in the Chelan Gorge Fire District volunteer personnel will respond and perform emergency services within their level of expertise and training.

It is with great concern to the Commissioners, Fire Chief and Volunteers that if the American Whitewater or any such agency is granted the access of recreational use to the Chelan Gorge that the safety of the boater, public and emergency personnel would be jeopardized due to the dangerous terrain and rapid water flow in the Chelan Gorge. It is not a place for the public to recreate safely.

Please find this letter in opposition of whitewater rafting and any other recreational activities in the Chelan Gorge.

Re: Law Enforcement Emergency Response in the Chelan Gorge

Dear Kris,

I have reviewed the whitewater boating information included in the new license to operate Lake Chelan Dam. I am opposed to whitewater rafting, and in fact, any type of recreational activity in the Chelan Gorge.

Chelan County Sheriff's Office personnel are not equipped, nor do they have the necessary training to respond to such a high risk area in attempted rescue or recovery situations. I would not choose to submit my rescue technicians to such unnecessary risk, and it is my opinion no rescue or recovery could safely be accomplished in the Chelan Gorge.

The Chelan County Sheriff's Office will always respond in an emergency situation, however we do not have the capacity or expertise necessary to provide rescue or recovery efforts in the Chelan Gorge. Therefore, I adamantly oppose all recreational activities in this area.

Sincerely,

Michael T. Harum, Sheriff

Four rescued after getting stranded in Chelan river

Corrected version: The rising water levels were due to planned turbine maintenance at the dam.

Updated, 5 p.m. Tuesday:

CHELAN FALLS — First responders rescued four people who were stranded on a rock in the river Monday evening on the north side of the Chelan Gorge.

The group had gotten stuck due to water spilling from the dam and water levels rapidly rising, according to Chelan Fire and Rescue. The call for help came in shortly after 5 p.m.

Chelan County Fire District 1 and the Chelan County Sheriff's Office's High Angle Rope Rescue team also responded. Rescue swimmers were also in place, said Assistant Chief Brandon Asher with Chelan Fire and Rescue.

Crews took a 35-foot ground ladder from a fire apparatus and used rope techniques to secure the ladder and create a bridge to get to the group, Asher said. The last person was rescued about 9:20 p.m., and the last rescuer got across about 9:30 p.m.

Asher said two others in the group had already made it across before first responders got there. He said all six were males, probably in their late teens.

The group was about 300 feet down in a cliff area, Asher said.

He said the three agencies that responded had recently started training together more and it paid off. They were able to get everyone to safety before it got too dark.

"All in all, it was a smooth and safe operation," he said.

The rising water levels was a result of turbine maintenance at the Lake Chelan Dam, according to Rachel Hansen, Chelan PUD spokeswoman. As a result, spill from the dam increased from 200 cubic feet per second to 1,200 and caused the river to rise. The PUD reduced the spill to assist rescuers, Hansen said.

Title of rule and other identifying information: (describe subject) The WDFW received a rulemaking petition in January 2022 asking WDFW to amend RCW 220-312-050 by opening fishing in a section of the Chelan River upstream from the Chelan PUD safety barrier to the lake. In February 2022, the Fish and Wildlife Commission voted on the petition and directed WDFW to commence rulemaking. This CR 102 carries out the Commission's direction. The proposed change opens a previously closed section of Chelan River by allowing catch-and-release fishing only, using only barbless hooks with no bait.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: The upper reach of the Chelan River from the Chelan PUD powerhouse up to the Lake Chelan Dam (3.6-miles) is inaccessible by anadromous salmon and steelhead due to a 0.4-mile steep gorge area with several waterfalls (5-20 feet). This reach is currently closed to fishing under permanent WAC. Open the currently closed portion of the Chelan River to recreational fishing. No anticipated effects are expected. This proposal would change the existing closed fishing rule and open it up to recreational fishing.

Reasons supporting proposal: The WDFW agrees with the petitioner in that the currently closed portion of the upper Chelan River should be open to recreational fishing. The specific fishing season and rules/restrictions will be developed and recommended (by WDFW) following a public comment period.

In 2015, fishing was closed in the upper Chelan River to facilitate a multi-year evaluation of resident game fish restoration efforts. Closing recreational fishing was deemed necessary and appropriate to eliminate the effect of angler harvest and/or catch-and-release mortality on resident game fish. Results from the evaluation show that populations of resident gamefish in the upper Chelan River are sufficiently abundant to support recreational fishing.

Regulatory Fairness Act Cost Considerations for a Small Business Economic Impact Statement:

This rule proposal, or portions of the proposal, **may be exempt** from requirements of the Regulatory Fairness Act (see chapter 19.85 RCW). Please check the box for any applicable exemption(s):

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.061 because this rule making is being adopted solely to conform and/or comply with federal statute or regulations. Please cite the specific federal statute or regulation this rule is being adopted to conform or comply with, and describe the consequences to the state if the rule is not adopted.

Citation and description:

This rule proposal, or portions of the proposal, is exempt because the agency has completed the pilot rule process defined by RCW 34.05.313 before filing the notice of this proposed rule.

This rule proposal, or portions of the proposal, is exempt under the provisions of RCW 15.65.570(2) because it was adopted by a referendum.

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.025(3). Check all that apply:

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.025(4) –This chapter does not apply to the adoption of a rule if an agency is able to demonstrate that the proposed rule does not affect small businesses.

Explanation of exemptions, if necessary: : The department is exempt from the requirements of RCW Chapter 19.85 because the proposed recreational fishing rules do not regulate small businesses; rather, the department’s proposed fishing rules open fishing seasons, and provide fishing opportunity, that would otherwise be closed. In doing so, the proposed rules regulate individuals who undertake recreational fishing activities. The proposed statewide recreational rules simply govern the time, place and manner for individuals who want to enjoy the recreational fishing opportunities provided. While recreational fisheries contribute to statewide or local economies, and while those economic effects are part of the department’s consideration in opening fisheries, the economic effect of different possible recreational fishery packages does not constitute the direct imposition of any regulatory compliance costs on small businesses that supply recreational fishers, or that benefit from the State’s decision to open such fisheries.

COMPLETE THIS SECTION ONLY IF NO EXEMPTION APPLIES

If the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

No Briefly summarize the agency’s analysis showing how costs were calculated. _____

Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses, and a small business economic impact statement is required. Insert statement here:
