Falconry Manager, WDFW, 16018 Mill Creek Blvd, Mill Creek WA 98012

### Falconry Accidental Take Regulation

WAC 232-30-250 Provisions for accidental take by falconers.

All Sensitive, Threatened, Endangered, and Candidate Species (Species of Concern) take must be reported using the Falconry Accidental Take Report card. Please see <http://wdfw.wa.gov/conservation/endangered/All/> for a list of these species. Also, report all quarry for which the hunting season is not open.

Please keep your Accidental Take Report card with you when hunting.

#### Summary of the regulation

- If your falconry raptor captures any quarry out of season the animal must be released if it is not seriously injured.
- If the animal is seriously injured or killed you may not take the carcass but your raptor may feed on it at the site.
- If the animal is a state Species of Concern (see above) or a Federally listed Threatened or Endangered (T or E) animal you must record all the required information on the card before you leave the site.
- Report all T & E species to the US Fish and Wildlife Service also.
- Please send in reports of all Species of Concern and Federal T&E takes immediately but they must be reported by April 1 following the close of the current hunting season or within 10 days if not during the hunting season. Mail to **FALCONRY MANAGER, WDFW, 16018 MILL CREEK BLVD, MILL CREEK, WA 98012.**
- You must cease hunting for the day if your raptor takes any Species of Concern or Federal T&E species.
- Accidental kills of any combination of Species of Concern or Federal T&E species may not exceed a total of five in any license year.
