

## **Puget Sound Steelhead Advisory Group**

**Date:** January 18, 2018

**Time:** Noon - 7PM

**Location:** Lynnwood Embassy Suites

### **1) Introduction**

### **2) Puget Sound Steelhead Early Marine Survival Study (Michael Schmidt, Long Live the Kings; Erik Neatherlin, WDFW; Paul Hershberger, USGS)**

- Review results from studies looking at the factors affecting the survival of juvenile steelhead as they migrate from their natal stream out the Salish Sea.

### **3) Complete Discussion of Central & South Puget Sound Portfolio**

- Review information regarding the presence of steelhead in the North Lake Washington population.
- Discuss options for White River and complete draft portfolio informed by coarse scale assessment presented in November.

### **Dinner - Provided**

### **4) Overview of Northern Cascades Major Population Group**

- Review issues, populations, status, and TRT guidance

### **5) Overview and Preliminary Analysis of Potential Skagit Hatchery Steelhead Program (Gary Marston)**

- What is the potential program and what are the results from the preliminary analysis?

### **6) Looking Ahead**

### **7) External Messages**

- What are the 3-5 messages regarding this meeting that we want to provide to other interested stakeholders?

### **8) Public Comment**

### **9) Thoughts on Meeting (quick comment limited to a maximum of 30 seconds per person)**
