

Public Comment, Dec 2

- David
 - Regarding SFAs, consider having the ability to change an area to an SFA if there's a change in the situation during the season
- Chris
 - Public comment should be part of every meeting
 - Member attendance speaks to the value they place on public comment
- Carol
 - Grateful for people sharing their hearts
 - Didn't appreciate hearing producers frustrated with Dept. staff
 - Producer's need to pay more for use of public land
 - Producers need to accept some depredations

- Carol cont.
 - Pack #s of wolves are small compared to the # of livestock across the state
 - Cattle grazing on public lands needs to be less and less to recover wolves
- Rachel
 - Agree with Chris and Carol
 - Frustrated about how long it takes to agree on anything
