Summary

Meeting dates: December 6-7, 2013

Agenda item: Technical Geographic Split of WAC 232-28-619
Briefing and Public Hearing

Presenter(s): Joanna Eide, Administrative Regulations Analyst

Background summary:

WAC 232-28-619, Washington food fish and game fish—Freshwater exceptions to statewide rules, is currently an extremely large rule containing all freshwater water bodies that have exceptions to the default statewide freshwater recreational fishing rules. The rule is organized alphabetically with no regard to geographic area. Additionally, in its current form, the rule presents challenges for rulemaking activities, including emergency rulemaking and does not contain standard subsection references.

The rule is difficult to navigate for stakeholders and agency staff, and provisions for water bodies are unclear in areas of the rule where provisions appear in paragraph form. The Code Reviser also requests that the department split the rule into more manageable portions to more easily facilitate rulemaking activity.

The department proposes, in conjunction with the WAC Overhaul Project, to split WAC 232-28-619 into more manageable portions based on geographic area. Regional department staff members were heavily involved in this process to ensure that appropriate water bodies appear in the correct geographical section. Standard subsections are added and language changes and updates for uniformity and clarity are made.

Additionally, the department proposes to incorporate the new sections created by splitting WAC 232-28-619 into a new chapter, chapter 220-310 WAC – Personal use fishery, as a proactive measure for the WAC Overhaul Project. Once the renumbering and reorganization phase of the WAC Overhaul is complete, all recreational fishing rules will appear in chapter 220-310 WAC. By incorporating the sections of WAC 232-28-619 into this chapter at this time, the department avoids potential confusion from multiple WAC number changes for these often-used and important rule provisions.

Because of the length of the rules, electronic versions of the rule changes are available. A link to those will be placed on the Commission's website in advance of the Commission meeting, and staff will display electronic versions of the changes during the Commission Briefing.

Policy issue(s) you are bringing to the Commission for consideration:

None. The proposed changes are technical in nature.

Public involvement process used and what you learned:

A public hearing will be held in conjunction with the Commission briefing during the December Fish and Wildlife Commission Meeting. The department also sent notification of proposed rule changes to members of the public who indicated that they wished to be notified of proposed

rule changes. The department also posted information on the proposed changes with an online form for public comment on the department's website.

Action requested: N/A

Draft motion language: N/A

Justification for Commission action:

The Code Reviser requested that the department separate the WAC 232-28-619, a massive rule containing exceptions to statewide freshwater recreational fishing rules, into more manageable portions. This split will more easily facilitate multiple annual rule changes and emergency rule promulgation.

The proposed changes separate WAC 232-28-619 into several separate WAC sections based on geographical area to better aid readers in finding provisions. Subsections are added following the guidelines from the Code Reviser's Bill Drafting Guide (also used for rulemaking) to increase clarity, readability, and enforceability. Additionally, rule language is supposed to be efficient, clear, legally adequate and accurate. The proposed amendments are in accordance with and will promote these goals.

All changes are technical in nature and seek to better organize WAC provisions without affecting the underlying meaning of rule provisions.

Communications Plan: This rule proposal is listed on the department's website on the Current Rule Making Activities page and on a separate online form soliciting feedback from the public on the department's website. The department sent notification of the rule change proposal to members of the public who expressed interest in receiving notification of proposed rule changes.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: The purpose of this proposal is to make necessary adjustments to recreational fishing rules based on department data, public feedback, and changes in fish and shellfish populations. The department makes similar adjustments to recreational rules annually, to maximize conservation and recreational-fishing opportunity. The department also proposes taking this opportunity to split WAC 232-28-619 into more manageable sections based on geographic area. This project incorporates two CR-101s, WSR 12-11-078 and WSR 13-14-125 to accomplish both substantive changes and technical changes in one rulemaking project.

Freshwater exceptions to statewide
rules.

**Chapter 220-310 WAC
PERSONAL-USE FISHERIES**

NEW SECTION

WAC 220-310-175 Freshwater exceptions to statewide rules—General rules. The following provisions and definitions apply to this section through WAC 220-310-200.

(1) It is unlawful to fish for, take, or possess salmon from freshwater streams and lakes that are not specifically listed as open for salmon fishing.

(2) Waters listed as open during a specific date range that do not reference a particular species are open during the date range for game fish only.

(3) Rivers, streams, and beaver ponds that drain into Puget Sound, the Strait of Juan de Fuca, or the Pacific Ocean (excluding the Columbia River) are closed to fishing unless specifically listed as open.

(4) All limits are daily limits, unless otherwise provided.

(5) Within Puget Sound, beaver ponds located within or adjoining streams that are listed as open to trout and other game fish follow the same rules as the stream, except as otherwise provided.

(6) A "float" or "bobber" means a hookless, floating device that is attached to or slides along the mainline or leader above the hook(s) for the purpose of suspending hook(s) (which are not part of the bait, lure, or fly) off the bottom of the stream or lake and visually signal (from the surface of the water) a fish's strike at the hook(s).

(7) "Lead jig" means a lure consisting of a hook permanently or temporarily attached directly to a lead weight by any method.

(8) "Lead weight" means material constructed of lead and applied to a fishing line or lure and designed to help keep the hook, bait, or lure underwater.

(9) "Unmarked salmon" means salmon without either a clipped ventral fin or a clipped adipose fin as evidenced by a healed scar.

(10) Kokanee/sockeye less than fifteen inches in length are considered kokanee and kokanee fifteen inches and over in length are considered sockeye salmon.

(11)(a) A violation of this section through WAC 220-310-200 is an infraction, punishable under RCW 77.15.160, unless the person has harvested fish. If the person has harvested fish, the violation is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree—Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.

(b) Freshwater terminal gear restrictions:

(i) Terminal gear restrictions apply to all species, including salmon, unless otherwise provided.

(ii) In all waters with freshwater terminal gear restrictions including, but not limited to, night closures, selective gear rules, whitefish gear rules, single-point barbless hooks required, fly-fishing only, and anti-snagging rules, violation of the gear rules is an infraction, punishable under RCW 77.15.160.

(iii) It is unlawful to possess fish taken with gear in violation of the freshwater terminal gear restrictions. Possession of fish while using gear in violation of the freshwater terminal gear restrictions is a rebuttable presumption that the fish were taken with such gear. Possession of such fish is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree—Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.
