#### **Summary**

Meeting dates: January 19, 2018, Commission Meeting

Agenda item: Sport Fishing Rule Simplification Process 2017-2019 – Rule Adoption

**Presenter(s):** Steve Thiesfeld, Inland Fish Program Manager, Fish Program

Chris Donley, Region 1 Fish Program Manager, Fish Program Chad Jackson, Region 2 Fish Program Manager, Fish Program

#### **Background summary:**

The Department will brief the commission on efforts to simplify sport fishing regulations while meeting critical conservation needs and recreational opportunities. The purpose is to reduce complexity and increase understanding of sport fishing regulations. The Commission was briefed on this process in October 2017. Proposals were posted online from September through November. The Commission was briefed on comments received and a public hearing held in December 2017.

#### Policy issue(s) you are bringing to the Commission for consideration:

Establish rules and regulations for the upcoming 2018-2019 sport fishing season(s) to simplify the regulations while ensuring conservation of the fish and shellfish resource, and providing sustainable recreational fishing opportunities.

#### Fiscal impacts of agency implementation:

Approximately \$15,000 to operate access areas for additional months associated with opening some lakes year-round.

#### Public involvement process used and what you learned:

A public news release and online notice through our website notified people of the opportunity to comment on sport fishing simplification proposals. Department staff provided explanations for proposals. The end date for submitting comments is November 30, 2017. The Department has conducted six regional workshops with the public to discuss the rule simplification process and proposed regulation changes.

- Spokane: 6 to 8 p.m., Sept. 26, Center Place, 2426 N. Discovery Place, Spokane Valley.
- Ephrata: 6 to 8 p.m., Sept. 27, Grant County Public Works, 124 Enterprise St. SE, Ephrata.
- Selah: 6 to 8 p.m., Sept. 28, Selah Civic Center, 216 S. First St. Selah.
- Mill Creek: 6 to 8 p.m., Oct. 3, WDFW Region 4 headquarters, 16018 Mill Creek Blvd., Mill Creek.
- Ridgefield: 6 to 8 p.m., Oct. 4, WDFW Region 5 Headquarters, 5525 S. 11th St., Ridgefield.
- Montesano: 6 to 8 p.m., Oct. 5, Montesano City Hall, 112 N. Main St., Montesano.

#### Nearly 1700 comments were received on the proposals.

#### **Action requested:**

Consideration for adoption of the 2018-2019 sport fishing changes as presented by staff.

#### **Draft motion language:**

Move to adopt permanent amendments to:

WAC 220-312-010 Freshwater exceptions to statewide rules - General Rules

WAC 220-300-160 Definitions – Personal Use Fishing

WAC 220-310-070 Statewide Bait Rules

WAC 220-310-080 Game Fish Seasons – General Rules

WAC 220-310-090 Game Fish Possession Limits and Size Limits

WAC 220-312-050 Freshwater exceptions to statewide rules - Eastside

WAC 220-312-060 Freshwater exceptions to statewide rules - Columbia

WAC 220-312-020 Freshwater exceptions to statewide rules - Coast

WAC 220-312-040 Freshwater exceptions to statewide rules - Puget Sound

WAC 220-312-030 Freshwater exceptions to statewide rules - Southwest

as presented by staff.

#### **Justification for Commission action:**

This action is justified under RCW 77.12.047.

#### **Communications Plan:**

The public (including people who submitted proposals) and our advisory groups will be notified about the outcome of the sport fishing process through a press release, our website, and email. Hard copies will be sent to those who request it.

Form revised 12/5/12

# 2018-2019 Sport Fishing Regulation Simplification Proposals

**January 19, 2018** 

# **TABLE OF CONTENTS**

# 1. Allow Chumming Statewide	2
# 2. Eliminating Minimum Length and Daily Limit on Eastern Brook Trout	3
# 3. Eliminate Mandatory Steelhead Retention	4
# 4. Eliminate panfish special limits	5
# 5. Consistent language for game fish possession limits	6
# 6. Removing duplicative landowner rules	7
# 7. Separate trout and steelhead rules	8
# 8. Statewide standard regulations for lakes, ponds and reservoirs	9
# 9. Standardize juvenile only waters	12
# 10. Statewide standard regulations for rivers, streams and beaver ponds	13
# 11. Steelhead incidental retention	17
# 12. Stream season for game fish	18
# 13. Rule regarding fishing for trout with bait	19
# 14. Whitefish only rules season standardization	20

### # 1. Allow Chumming Statewide

#### **Type of Rule Change Proposal**

Recreational

#### **Short Description**

This rule proposal would eliminate the prohibition of chumming and allow it statewide.

#### **Explanation**

Chumming (scattering feed or other materials to attract fish to a location for the purpose of harvest) would be allowed statewide and would provide opportunity for the public to use this method where desired. This proposal would enhance fishing for resident trout, catfish, and carp. It would also allow kokanee anglers to release other trout they encounter and continue to fish while targeting kokanee with relatively benign baited or scented lures.

#### **Written Testimony (165 comments)**

#### Support (37):

Comments included: There was strong support from carp and catfish anglers. Many in support saw this as an expansion of opportunity and the ability to harvest fish. Shore anglers expressed their support as a better way to effectively harvest fish.

#### Oppose (128):

Comments included: There was strong opposition to this proposal based on the perception that it will create ethical issues, conservation issues and potential for negative environmental impacts from the over use of chumming materials.

#### **Public Hearing (4 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None

#### Staff Recommendation:

Do not adopt based on public comment.

# # 2. Eliminating Minimum Length and Daily Limit on Eastern Brook Trout

#### **Type of Rule Change Proposal**

Recreational

#### **Short Description**

This rule proposal would standardize fishing regulations statewide for eastern brook trout. The proposed rule change would eliminate minimum length requirements and daily limits statewide.

#### **Explanation**

Eastern brook trout are a non-native trout species that hybridizes with native bull trout and compete with other native species in Washington waters. Removing daily limits and size restrictions on brook trout will enable anglers to assist the department with the removal of over-populated and stunted brook trout from hundreds of high lakes and thousands of miles of streams statewide. Using angling exploitation as a method for control for trout populations rarely succeeds as a single means of fishery management, but this is a positive step forward from both a management and policy perspective. Specific areas where this rule will be helpful include small headwater streams and high elevation lakes. The department has been seeking a better management paradigm for high elevation lakes trout management. There are hundreds of high elevation lakes that contain brook trout that could be positively impacted by this rule change.

There will be exceptions to this rule because the department manages for brook trout through stocking in approximately 40 lakes statewide. To satisfy public demand the department manages multiple lowland lakes for brook trout through stocking. These lowland lakes are closed system lakes that allow for the fishery to be created while preventing movement of brook trout into waters where they may be problematic from a native salmonid conservation perspective. Standard statewide trout rules will continue to apply in these excepted waters

#### **Written Testimony (46 comments)**

#### Support (40):

Comment included: Commenters supported this rule change as a way to reduce the presence of brook trout in waters where they are negatively impacting native salmonids. Some public comment welcomed the ability to harvest more fish as an enhancement to fishing opportunity.

#### Oppose (6):

Comment included: Commenters questioned the efficacy of this rules change from a conservation perspective and also were concerned about over harvesting brook trout in waters where they are specifically managed as a species that provides recreational opportunity and doesn't have conservation impacts.

#### **Public Hearing (0 comments)**

#### **Modifications:**

None.

#### Staff Recommendation:

# # 3. Eliminate Mandatory Steelhead Retention

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

Removes the mandatory hatchery steelhead retention requirement.

#### **Explanation**

Mandatory hatchery steelhead retention defined as "the catch and release of hatchery steelhead is not allowed. These fish must be retained if it is legal to do so." will be eliminated by this proposal. Mandatory steelhead retention will still be required in steelhead fisheries in the Upper Columbia (i.e., Methow, Okanogan and Wenatchee rivers) because mandatory retention is a requirement of the federal fishery permits that regulates these fisheries.

In most cases there are few enough hatchery steelhead available for harvest that anglers are not inclined to catch and release hatchery steelhead, this is especially true in western Washington streams. Conversely, there is a higher propensity for catch and release in Columbia Basin interior summer steelhead fisheries, such as the Snake River, Grande Ronde and other interior streams. While anglers are more inclined to release these fish, the fish remain in the fishery in many of these streams for up to six months and are likely during this extended period to be subject to harvest by a willing angler. Mandatory harvest can result in false creel reporting by the public. Under the current rule, anglers are reporting higher catch rates of wild versus hatchery steelhead to avoid being cited for illegal catch and release activity of hatchery steelhead. Continued false reporting will result in increased wild steelhead encounter rate estimates in fisheries and may require the department to abbreviate steelhead fisheries because of erroneous creel information. Finally, this rule has proven to be difficult to enforce in most cases.

#### Written Testimony (64 comments)

#### Support (43):

Comment included: The majority of the public comment expressed that this rule is too complicated, ineffective and unenforceable and therefore it should be eliminated. Some commenters thought that mandatory retention limited their amount of time in the field because they were forced to quit fishing sooner than they wanted. In addition, some commenters supported the proposal because mandatory retention required them to keep fish that were undesirable from a consumption perspective.

#### Oppose (21):

Comment included: The overarching theme for those opposed was that hatchery fish should be removed to prevent them from having deleterious impact on wild steelhead populations.

#### **Public Hearing (5 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None.

#### Staff Recommendation:

# # 4. Eliminate panfish special limits

#### Type of Rule Change Proposal

Simplification

#### **Short Description**

Remove daily limits for panfish species on specific waters.

#### **Explanation**

This rule change would remove the daily limits on panfish species such as bluegill, crappie and yellow perch on specified waters statewide. The current special limits are not showing biological and/or fishery benefits to warmwater fish populations.

#### **Written Testimony (301 comments)**

#### Support (28):

Comment included: In general, most supporting commenters favored this proposal because they believed that increasing harvest on panfish would result in reducing overcrowded fish communities (stunting) and expand recreational fishing opportunity.

#### Oppose (273):

Comment included: The majority of comments in opposition to this proposal were that anglers wanted the current rules to be left in place for the major panfish waters (Banks Lake, Potholes Reservoir and Moses Lake). The commenters preferred the current rules and cited that the current fisheries were better off under the existing paradigm. Those opposed were fearful for both social and biological reasons that changing the current rules would negatively impact these major water panfish fisheries.

#### **Public Hearing (8 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None.

#### Staff Recommendation:

Do not adopt based on public comment.

# # 5. Consistent language for game fish possession limits

#### **Type of Rule Change Proposal**

Clarification

#### **Short Description**

This rule proposal will change the game fish possession limit to apply "when in transit", aligning the regulations with the definition of the general possession limit rule.

#### **Explanation**

Currently WAC 220-310-090 – Game fish possession limits is missing this key phrase. Adding this will remedy this oversight and reduce any confusion.

#### **Written Testimony (31 comments)**

Support (26):

Comment included: In general, supporting Commenters agreed with making the possession rules consistent and clear so that anglers can follow them more easily and the rules can be enforced more effectively.

Oppose (5):

Comment included: Most of the opposition cited that imposing a possession limit would negatively affect angler that fish and harvest fish in one place for extended periods of time, precluding them from harvesting a limit of fish each day. These comments highlight that some anglers do not realize that there are possession limits.

#### **Public Hearing (0 comments)**

#### **Modifications:**

None.

#### **Staff Recommendation:**

# # 6. Removing duplicative landowner rules

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

Remove fishing regulations in the WAC and pamphlet that are duplicative of local landowner rules and regulations (e.g. county ordinances stating "no use of a floating device equipped with an internal combustion motor.")

#### **Explanation**

This will reduce the complexity of regulations in the pamphlet and rely on local landowners to post and enforce their regulations on site.

#### **Written Testimony (24 comments)**

#### Support (13):

Comment included: Supporters expressed that "simpler is better" and "If the WDFW did not make the regulation, then it shouldn't be in the pamphlet".

#### Oppose (11):

Comment included: Removal of these rules from the pamphlet will eliminate an angler's ability to know all of the legal restrictions on a body of water they choose to recreate upon, and It doesn't reduce complexity when you are removing information that is important to your client base.

#### **Public Hearing (1 comment)**

The one comment was opposed because of the convenience of having boating regulations in the pamphlet.

#### **Modifications:**

None.

#### Staff Recommendation:

# #7. Separate trout and steelhead rules

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

This rule proposal will provide separate seasons, daily limits and size restrictions for trout and steelhead.

#### **Explanation**

Distinguishing between trout and steelhead will help anglers better understand the rules as published in the pamphlet. For many anglers the current rule structure is confusing and leads to dissatisfaction with use of the rule pamphlet and their fishing experience. This rule proposal would allow both limits to be retained daily (e.g. two trout and three steelhead). This would also modify the definition of trout to "rainbow trout (except steelhead)".

#### **Written Testimony (61 comments)**

#### Support (28):

Comment included: Most supporting commenters believe this proposal makes the rules clearer and easier to understand. One comment received stated, "Separating steelhead from trout should make reading and understanding the fishing regulations much easier for many anglers".

#### Oppose (33):

Comment included: Opposition to this proposal centered around the conservation risk regarding allowing the potential for increased trout harvest and wild steelhead conservation.

#### **Public Hearing (5 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None.

#### Staff Recommendation:

### # 8. Statewide standard regulations for lakes, ponds and reservoirs

#### Type of Rule Change Proposal

Simplification

#### **Short Description**

This set of proposed rule changes will reduce the number of seasons and regulations that apply to lakes, ponds and reservoirs.

#### **Explanation**

When department staff reviewed existing rules that were applied to lakes, ponds and reservoirs there were dozens of different rules and management scenarios across the state, contributing to angler confusion and frustration. To reduce rule complexity, the range of season options that could be applied to lakes, ponds and reservoirs was abbreviated and fewer options were provided for daily limits and size limits for trout and kokanee. There are a few exceptions statewide because of fishery permitting, access or other types of agreements that preclude managers from applying this rule paradigm to specific waterbodies.

Specific changes that the Commission should be aware of are:

**Seasons**: Statewide there was a large number of opening and closing dates for water bodies. Because of the variability in these dates it was difficult for anglers to understand when a particular fishery was open or closed. To reduce confusion and expand fishing opportunity, staff worked to reduce the number of seasons to the set of six listed below.

**Trout Limits:** Under the current set of rules there were hundreds of lakes managed with differing daily limits and/or size restrictions for trout. These were standardized to the four trout limit options listed in the table below. The default statewide daily bag limit will be 5 trout, no size restriction.

**Kokanee Daily Limits**: Under the current rule paradigm there are numerous kokanee bag limits around the State. Some lakes have a 16 fish daily limit, some are a 10 fish daily limit and some are a five fish daily limit. In some cases, kokanee counted as part of the trout limit and in others they are an additive bonus limit to the trout fishery. For simplification purposes staff propose to create a statewide daily limit of 10 kokanee that will be additive to the daily limit of 5 trout.

**Panfish Limits**: The current statewide daily limit for panfish is "no limit" and no minimum size. This is not a change from the current statewide daily limit for panfish.

Regulation proposals are as follows (items in red italics represent those rules that are proposed changes from the current WAC):

#### Seasons:

- Year-round (default)
- March 1 through September 30
- March 1 through November 30
- Fourth Saturday in April through September 30
- Fourth Saturday in April through October 31
- Friday after Thanksgiving through March 31

#### **Catch limits and minimum sizes:**

Species	Daily limit	Size restrictions	
Trout	5	None (default)	
Trout	2	14 inch minimum	
Trout	1	18 inch minimum	
Trout	None	Catch and release	
Kokanee	10	None	
Largemouth bass	5	Bass less than 12 inches or greater than 17 inches, no more than one over 17 inches daily	
Smallmouth bass	10	No more than one 14 inches or greater in length daily	
Walleye	8	Minimum size 12 inches only 1 over 22 inches	
Channel catfish	5	None	
Tiger musky	1	Minimum length 50 inches	
Panfish	None	None	
Burbot	5	None	
Whitefish	15	None	
All other gamefish	None	None	

#### **Written Testimony (56 comments)**

#### Support (40):

Comments included: Supporters of the proposed rules felt that fewer seasons and bag limits would be less complex and easier to understand.

#### Oppose (31):

Comments included: Opponents of the proposed rules were generally concerned about a specific lake that they fished. Lakes associated with the Columbia National Wildlife Refuge generated a series of comments concerned about a later opening date, requesting that the opening day remain April 1. However, refuge regulations specify that April 1 is the earliest possible opening date, which is not consistent with the six proposed open periods. Specific issues addressed under option 2 include:

• Comments suggested that the proposed daily limit and minimum size for trout on Coldwater Lake were too liberal to protect it as a quality fishery.

 Comments were received about removing the prohibition of fishing from a floating device during waterfowl season on Fazon, Terrell and Tennant lakes.

#### **Public Hearing (0 comments)**

#### **Modifications:**

1. Coldwater Lake (Cowlitz County): Revise to trout daily limit 1, minimum length 18".

The Department supports retaining this lake as a quality fishing water while allowing some harvest. The modified daily limit and minimum size limit fits is consistent with the designated lake management regulations.

**2.** Fazon, Terrell and Tennant lakes (Whatcom County): Retain current regulations (do not simplify).

Public input noted the potential of increased conflict between anglers and waterfowl hunters, and the potential safety issues, associated with simplified regulations. Based on those concerns, the Department recommends retaining the current season structure that prohibits fishing from a floating device during waterfowl seasons.

#### Staff Recommendation:

Adopt as modified.

# # 9. Standardize juvenile only waters

#### **Type of Rule Change Proposal**

Recreational

#### **Short Description**

Standardize the language regarding eligible participants allowed to utilize "Juvenile Only" waters. Under the proposed change juveniles, seniors (70+), and anglers with a disability who possess a designated harvester companion card will be entitled to fish these specially designated waters.

#### **Explanation**

Statewide there are a number of differing approaches to whom is eligible to fish "Juvenile Only" waters. In some cases, these waters are open to juveniles only, some are open to adults if accompanied by a juvenile and others allow juveniles, seniors and disabled anglers. This rule change will provide consistency regarding who can fish in these designated waters.

#### Written Testimony (23 comments)

#### Support (17):

Comment included: Those in support of this proposal expressed that it was a simpler approach to these types of water, while also expanding opportunity to Seniors and Disabled Anglers.

#### Oppose (6):

Comment included: Those members of the public that were opposed to this rule change were fearful that adults would, "take over" fisheries from juveniles. Most stated that there should be some waters statewide that are set aside just for "kids".

#### **Public Hearing (0 comments)**

#### **Modifications:**

None.

#### Staff Recommendation:

# # 10. Statewide standard regulations for rivers, streams and beaver ponds

#### **Type of Rule Change Proposal**

Simplification

#### Short Description

Unless listed as an exception, these rule proposals will standardize regulations for all streams statewide

#### **Explanation:**

- **Gamefish Season:** Open Saturday before Memorial Day through October 31, unless listed as an exception. This rule change proposal is explained in greater detail under item #12 in this Concise Explanatory Statement document.
- Wild trout, except Brook Trout and Dolly Varden/Bull Trout: Daily limit 2, minimum size 8 inches, unless listed as an exception. In rivers, streams or beaver ponds where there are sensitive native salmonid populations there may be more conservative rules applied. In some cases, the more conservative rules may include selective gear rules and/or more restrictive harvest limits such as, 2 fish over 14 inches or catch and release. This is the "basic stream strategy" the Department utilizes to protect anadromous and resident salmonids.
- **Dolly Varden/Bull Trout:** This is not a change from the current rule paradigm for this species.
- Brook Trout: Statewide no daily limit, no minimum size. Open when open for gamefish or salmon. This rule change proposal is explained in greater detail under item #2 in this Concise Explanatory Statement document.
- Hatchery Trout: Daily limit 2, no minimum size. Open when open for gamefish or salmon. This rule proposal is designed to encourage anglers to remove residualized adipose clipped hatchery steelhead smolts, to reduce the potential for negative impacts on wild trout and steelhead. The department has not routinely stocked resident hatchery trout in streams since the late 1990's when many stocks of steelhead in the Washington were ESA listed. This rule currently exists in a handful of rivers across the state. The rule change proposal is intended to expand this rule to include almost all rivers, streams and beaver ponds statewide.
- Bass, Channel Catfish, and Walleye in Rivers and Streams: No daily limit, no minimum size. Open when open for gamefish or salmon. The department removed limits on bass walleye and channel catfish in the Columbia River and most tributaries beginning in 2015. The limits were applied to specific waters in the basin with the result that two streams that flow into the Columbia River within a couple of miles of each other could have different regulations, or the regulations changed at a specific location on a river. Approximately 50 streams or stream segments in the Columbia River Basin have this rule and require listing in the pamphlet. This component of the proposal was intended to standardize this rule across all rivers, streams and beaver ponds statewide as a rule simplification measure.
- Shift stream season to an "open unless listed as closed paradigm": This component of the
  proposal restores the historical stream management paradigm of "open unless listed as closed",
  relying on the precautionary principles established in the statewide basic stream strategy for

protection of anadromous and resident fish. To provide additional protection for anadromous fish, the Department initiated efforts to close most anadromous streams to fishing starting with the Puget Sound region in 2010 and concluding with the Columbia River basin in 2015. These closures were implemented with good intentions to improve anadromous fish runs. However, recent information from Puget Sound suggests little measurable benefit to these populations, while opportunity was severely reduced, the complexity of the pamphlet has increased, and many streams without anadromous fish were inadvertently closed. Recent research in the Salish Sea has revealed that early marine survival is likely the key driving force limiting many of these anadromous populations, with marine mammal predation one of most significant factors.

The basic stream strategy is designed to assure that adequate recruitment of juvenile salmonids occurs in a dependable, sustained basis. This strategy protects anadromous and resident salmonids based on timing of the fishery, as well as by regulating the size that may be harvested, and setting limits on the daily catch. The "standard" season opens in late spring to protect the majority of out-migrating smolts and spawning steelhead and cutthroat trout. The season closes on October 31 to provide further protection to upstream migrating coastal cutthroat, and remains closed during winter and early spring to protect spawning salmon, trout and steelhead. The minimum size for trout is 8" and protects the vast majority of salmonid smolts from harvest and allows most resident rainbow trout to spawn once before being subject to harvest. In many streams with significant coastal cutthroat populations, the minimum size is 14" to allow the anadromous form to spawn once before being subject to harvest. The daily limit is two and set low to protect stocks from over-harvest.

#### Written Testimony (85 comments)

#### Support (31):

Comment included: Many commenters expressed that simple is better, and that fewer rules and fewer exceptions will reduce confusion. Supporters also expressed a desire to re-open many streams that were closed in recent years.

#### Oppose (54):

Comment included: Comments focused on two specific issues: 1) the deregulation of bass, walleye and catfish in all streams, lakes and beaver ponds; and 2) the shift in stream management to the historical paradigm. Warmwater supporters felt the proposal was another attack on their favorite fisheries and was "creep" towards the Department deregulating warmwater fisheries statewide. Opponents of restoring the historical stream management paradigm expressed concern about potential negative impacts to salmon and steelhead, especially ESA listed stocks; as well as coastal cutthroat. Many of the opponents expressed a desire to require the release of all wild trout as a statewide approach. Some commenters wanted increased fly fishing only on the Stillaguamish River and release of all wild trout.

#### **Public Hearing (10 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

1. Proposed deregulation of limits on bass, walleye, and channel catfish in streams and rivers: Revise to include only the Columbia River below Chief Joseph Dam and Snake River, and all their tributaries - no daily limit and no size limits for bass, walleye and channel catfish.

Much of the opposition to the proposed streams rules was focused on the component removing the limits on bass, walleye and channel catfish. The Department is recommending a modified the

proposal based on the concerns expressed by the public. Under this modified proposal, all rivers and streams flowing into the Columbia River downstream of Chief Joseph Dam, including the Columbia and Snake rivers, would have no limits on bass, walleye and channel catfish, but all other streams and river would retain the current statewide limit or their current special regulation. Under this scenario, we would no longer have different regulations for bass, walleye and channel catfish for two streams that flow into the Columbia River with a couple of miles of each other, nor would the regulations change at a specific location on a river. This should standardize and simplify the regulations within this area. At the same time, the major warmwater rivers and streams outside the Columbia River anadromous zone identified as concerns by the commenters would retain their current limits, protecting those fisheries.

2. Proposed wild trout limits: Revise wild trout limits to require the release of cutthroat trout and wild rainbow trout in the following wild steelhead gene bank basins: Nisqually, Sol Duc, North Fork Toutle/Green, East Fork Lewis, Wind, and Grays/Chinook.

The second component of the stream proposal that generated substantial public comment focused on the change in the stream management paradigm to "open unless listed closed". The Department is recommending a modified proposal based on the concerns expressed by the public.

The Department has been working to establish a network of wild steelhead gene banks across the state where wild steelhead stocks are largely protected from the effects of hatchery steelhead programs. At least one wild stock gene bank will be established for each major population group in each steelhead distinct population segment. Under this modified proposal, retention of cutthroat trout and wild rainbow trout would be prohibited in the following designated gene bank basins: Nisqually, Sol Duc, Green/North Fork Toutle, East Fork Lewis, Wind, and Grays/Chinook. While the Department believes the basic stream strategy (Open late May through October, 8" minimum, and two trout daily limit) provides the necessary protection for most anadromous and resident fish, this modified proposal partially addresses concerns that a more precautionary approach is warranted for steelhead and cutthroat trout by providing significant areas of refugia where no native trout are allowed to be harvested. However, we retain the core principle of returning to the historical stream management paradigm of "open unless listed as closed" in most areas and the benefit to simplification. As additional wild steelhead gene banks are designated, release regulations can be considered by the Department and Commission.

The Department will continue to monitor salmon and steelhead adult returns to ensure that appropriate fishing regulations are in place and adjust if needed. Under this modified proposal, the wild steelhead gene banks will provide multiple basins where the effects of different fishing regulations (along with different hatchery stocking strategies) can be evaluated using adult return data.

**3.** Lewis River from Eagle Cliff Bridge to Big Creek. Revise to close early from Eagle Cliff Bridge to Muddy River.

The Department proposed closing this section of river to protect migrating and holding pre- and post-spawning bull trout. Comments were received that significant opportunity would be lost by closing this entire stretch and suggesting that an alternative boundary would achieve the desired protection. The Department concurs.

**4.** Kalama River from the natural gas pipeline to the lower salmon hatchery intake. Retain fly-fishing only.

The Department proposed removing the September 1 through October 31 fly fishing only regulation on this stretch of river to simplify the regulations. Comments were received that this

was still an important opportunity for fly anglers and helped meet the intent of providing diverse opportunities.

**5.** Kalama River from 6420 Road to Kalama Falls: Retain closed waters from Jacks Creek to Kalama Falls.

The Department proposed opening this section of river to simplify the regulations. Comments were received expressing concern about limited access to this area and continuing to provide a sanctuary for steelhead. The Department considered the comments and suggests modifying the proposal to retain a partial closure of this area.

**6.** Stillaguamish River from Marine Drive upstream to forks: retain selective gear rules, and catch and release except hatchery steelhead regulation, from the Saturday before Memorial Day through November 30.

Commenters suggested additional fly fishing only seasons for the Stillaguamish River and forks, and additional catch and release requirements for wild trout. The Department had proposed a reduction in selective gear rules and less release requirements to simplify the regulations. Based on consideration of the public comments, the Department recommends a modified proposal to keep the status quo on the mainstem Stillaguamish River.

#### **Staff Recommendation:**

Adopt as modified.

#### # 11. Steelhead incidental retention

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

This rule proposal modifies language to allow the retention of incidentally caught hatchery steelhead in freshwater when a water is open for game fish or salmon.

#### **Explanation**

The rule in its current form only allows incidental steelhead retention in Puget Sound and on the coast. This proposal would apply this rule to almost all freshwater rivers and lakes statewide.

#### **Written Testimony (29 comments)**

#### Support (24):

Comment included: Supporters of this rule change felt it was a good idea to allow anglers to harvest "stray" hatchery steelhead and that allowing additional harvest opportunities of hatchery steelhead was a "good thing".

#### Oppose (5):

Comment included: Public comment expressed that the current number of hatchery steelhead is insufficient to allow additional harvest and that this type of rule change will encourage angling for steelhead outside of designated steelhead seasons.

#### **Public Hearing (0 comments)**

#### **Modifications:**

None.

#### **Staff Recommendation:**

# #12. Stream season for game fish

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

Standardize the statewide annual season for rivers, streams and beaver ponds to the Saturday before Memorial Day through October 31.

#### **Explanation**

Currently there are three separate stream openers: Saturday before Memorial Day, June 1st and first Saturday in June. There has been substantial debate as to what date is adequately protective of outmigrating steelhead smolts, spawning adult steelhead, and post-spawn "kelts". This proposal reduces complexity and provides predictable fishing opportunities, and provides additional angling opportunity on streams, while adequately protecting juvenile and adult steelhead. Risk to out-migrant steelhead smolts is minimized with the daily limit of 2 and minimum length 8 inches for trout. In most cases, anglers will not encounter steelhead smolts that are greater than 8 inches in length ensuring that all but a few smolts will be released under the trout rule paradigm. In addition, many streams where steelhead and salmon smolts are present in late May will be too high and turbid to encourage angling to occur, thus reducing the risk of encounters with out-migrants. Finally, in streams where the conservation risk is too high they will be excepted from this rule change.

#### **Written Testimony (39 comments)**

#### Support (26):

Comment included: Some members of the public that expressed support for this proposal liked the additional opportunity afforded by this rule change. Additionally, some supported the fact that it would provide opportunity during the Memorial Day holiday weekend. Many commenters expressing support thought that this made the rules simpler for streams and were in support of doing so.

#### Oppose (13):

Comment included: Some of the public in opposition to these proposals expressed concerns regarding not being protective enough for steelhead smolts and spawning adults. Some commented that this rule was too restrictive and that there should be more opportunity on streams. Others commented that the rule is fine but there should be exceptions in some parts of the state to protect sensitive stocks of salmon and steelhead.

#### **Public Hearing (2 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None.

#### **Staff Recommendation:**

# # 13. Rule regarding fishing for trout with bait

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

This proposal will eliminate the provision that states, "all trout caught with bait are counted as part of the daily limit, whether kept or released".

#### **Explanation**

The current rule was put in place to prevent anglers from sorting/high grading through a population of trout to harvest a daily bag limit of fish they were interested in harvesting. The current rule is difficult to enforce and restricts an angler's ability to continue fishing if choosing to catch and release while using bait. While sorting/ high grading can be an issue in trout fisheries, game wastage rules are in place to prevent this type of behavior from occurring. This change is proposed as a rule simplification measure that eliminates a rule that has been viewed by some angler as difficult to understand and comply with.

#### **Written Testimony (69 comments)**

Support (25):

Comment included: Public comments supported eliminating this rule because it is difficult to enforce, few anglers currently follow the rule and there is a perception that this affords anglers greater angling opportunity.

Oppose (107):

Comment included: Overwhelmingly public comment regarding this rule change was in opposition of changing because they felt that catch and release while using bait is harmful to trout and kokanee populations. Most commenters felt that fish caught with bait should be harvested.

#### **Public Hearing (5 comments)**

All comments were opposed and were similar to the written comments.

#### **Modifications:**

None.

#### Staff Recommendation:

Do not adopt based on public comment.

# # 14. Whitefish only rules season standardization

#### **Type of Rule Change Proposal**

Simplification

#### **Short Description**

This proposal will provide a consistent standard season for fisheries only open to whitefish.

#### **Explanation**

Currently there are multiple opening and closing dates for whitefish seasons statewide. These dates were generated by fisheries managers seeking to maximize recreational whitefish opportunity while adequately protecting other fishery resources in waterbodies under their management responsibility. As a result, there has not been a consistent statewide approach to opening and closing whitefish fisheries which has added complexity to the WAC and pamphlet. This proposal seeks to establish a single whitefish season statewide. Using a standard season of December 1<sup>st</sup> through the last day in February will maintain a predictable season for fisheries only open to whitefish that are consistent with wild steelhead and salmon protection statewide.

#### **Written Testimony (23 comments)**

#### Support (22):

Comment included: Most commenters supported the rule change proposal. The majority in support expressed approval under the belief that the proposal provided adequate protection for whitefish and steelhead that can be encountered during whitefish fisheries. Some supporters commented that they preferred that the whitefish season was standardized to make it simpler statewide.

#### Oppose (1):

Comment included: There was a single individual that was opposed to this proposed change. That individual was concerned that this rule change would reduce the amount of angling opportunity available for whitefish anglers in the Methow River.

#### **Public Hearing (0 comments)**

#### **Modifications:**

None.

#### Staff Recommendation:

Title: Rules	Coordinator			

<u>AMENDATORY SECTION</u> (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

- WAC 220-312-010 Freshwater exceptions to statewide rules—General rules. The following provisions and definitions apply to this section through WAC 220-312-060.
- (1) It is unlawful to fish for, take, or possess salmon from freshwater streams and lakes that are not specifically listed as open for salmon fishing.
- (2) Waters listed as open during a specific date range that do not reference a particular species are open during the date range for game fish only.
- (3) ((Rivers, streams, and beaver ponds are closed to fishing unless specifically listed as open.
  - (4))) All limits are daily limits, unless otherwise provided.
- $((\frac{5}{1}))$   $\underline{(4)}$  Within Puget Sound, beaver ponds located within or adjoining streams that are listed as open to trout and other game fish follow the same rules as the stream, except as otherwise provided.
- $((\frac{(6)}{(6)}))$  <u>(5)</u> It is permissible to retain up to two hatchery steelhead in waters where the season is open for game fish or salmon in WAC 220-312-020 ((and 220-312-040)) through 220-312-060, unless explicitly listed as closed to hatchery steelhead in WAC 220-312-020 ((and 220-312-040)) through 220-312-060.
- $((\frac{(7)}{)})$   $\underline{(6)}$  A "float" or "bobber" means a hookless, floating device that is attached to or slides along the mainline or leader above the hook(s) for the purpose of suspending hook(s) (which are not part of the bait, lure, or fly) off the bottom of the stream or lake and visually signal (from the surface of the water) a fish's strike at the hook(s).
- $((\frac{8}{1}))$  "Lead jig" means a lure consisting of a hook permanently or temporarily attached directly to a lead weight by any method.
- $((\frac{9}{9}))$  <u>(8)</u> "Lead weight" means material constructed of lead and applied to a fishing line or lure and designed to help keep the hook, bait, or lure underwater.

- $((\frac{10}{10}))$  <u>(9)</u> "Unmarked salmon" means salmon without either a clipped ventral fin or a clipped adipose fin as evidenced by a healed scar.
- ((\(\frac{(11)}{11}\))) (10) Kokanee/sockeye definition for Lake Washington and the Lake Washington Ship Canal in King County: Kokanee and sockeye less than fifteen inches in length are considered kokanee and kokanee and sockeye fifteen inches and over in length are considered sockeye salmon.
- ((\(\frac{(12)}{12}\))) (11)(a) A violation of this section through WAC 220-312-060 is an infraction, punishable under RCW 77.15.160, unless the person has harvested fish. If the person has harvested fish, the violation is punishable under RCW 77.15.380 Unlawful recreational fishing in the second degree—Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370 Unlawful recreational fishing in the first degree—Penalty.
  - (b) Freshwater terminal gear restrictions:
- (i) Terminal gear restrictions apply to all species, including salmon, unless otherwise provided.
- (ii) In all waters with freshwater terminal gear restrictions including, but not limited to, night closures, selective gear rules, whitefish gear rules, single-point barbless hooks required, fly-fishing only, and anti-snagging rules, violation of the gear rules is an infraction, punishable under RCW 77.15.160.
- (iii) It is unlawful to possess fish taken with gear in violation of the freshwater terminal gear restrictions. Possession of fish while using gear in violation of the freshwater terminal gear restrictions is a rebuttable presumption that the fish were taken with such gear. Possession of such fish is punishable under RCW 77.15.380 Unlawful recreational fishing in the second degree—Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370 Unlawful recreational fishing in the first degree—Penalty.
- $((\frac{(13)}{)})$  (12) For sturgeon fishing rules, see WAC 220-316-010 Sturgeon—Areas, seasons, limits and unlawful acts. [Statutory Authority: RCW 77.04.012, 77.04.013, 77.04.020, 77.04.055, and 77.12.047. WSR 17-05-112 (Order 17-04), amended and recodified as § 220-312-010, filed 2/15/17, effective 3/18/17. Statutory Authority: RCW 77.04.012 and 77.12.047. WSR 16-06-073 (Order 16-30), § 220-310-

175, filed 2/26/16, effective 7/1/16. Statutory Authority: RCW 77.04.012, 77.04.013, 77.04.020, 77.04.055, and 77.12.047. WSR 15-13-081 (Order 15-177), § 220-310-175, filed 6/12/15, effective 7/13/15. Statutory Authority: RCW 77.04.012, 77.04.013, 77.04.055, and 77.12.047. WSR 15-06-065 and 15-06-006 (Order 15-033), § 220-310-175, filed 3/4/15 and 2/20/15, effective 7/1/15; WSR 14-04-120 (Order 14-26), § 220-310-175, filed 2/4/14, effective 3/7/14.]

AMENDATORY SECTION (Amending WSR 17-16-109, filed 7/28/17, effective 8/28/17)

WAC 220-300-160 Definitions—Personal-use fishing. The following definitions apply to personal-use fishing rules in Title 220 WAC:

- (1) "Anadromous game fish" means steelhead, sea-run cutthroat trout, and sea-run Dolly Varden and bull trout.
  - (2) "Anti-snagging rule" means:
- (a) Except when fishing with a buoyant lure (with no weights added to the lure or line) or trolling from a vessel or floating device, terminal fishing gear is limited to a lure or bait with one single point hook.
- (b) Only single point hooks measuring not more then 3/4 inch from point to shank may be used and all hooks must be attached to or below the lure or bait.
- (c) Weights may not be attached below or less than 12 inches above the lure or bait.
- (3) "Bait" means any substance which attracts fish by scent or flavors. Bait includes any lure which uses scent or flavoring to attract fish.
- (4) "Barbless hook" means a hook on which all barbs have been deleted when manufactured or filed off or pinched down.
  - (5) "Bass" means largemouth and smallmouth bass.
- (6) "Bow and arrow fishing" means any method of taking, or attempting to take, fish by the use of an arrow equipped with a barbed head and a line attached, and propelled by a bow, as in the sport of archery, while the fisher is above the surface of the water.
- (7) "Buoy 10 line" means a true north-south line projected through Buoy 10 at the mouth of the Columbia River. "Buoy 10 fishery" means a fishery between a line in the Columbia River from Tongue Point in Oregon to Rocky Point in Washington and the Buoy 10 line.
- (8) "Buoyant lure" means a lure that floats on the surface of freshwater when no additional weight is applied to the line or lure, and when not being retrieved by a line.
- (9) "Channel Marker 13 line" means a true north-south line through Grays Harbor Channel Marker 13.

- (10) "Daily limit" means the maximum number or pounds of fish, shellfish, or seaweed of the required size of a given species or aggregate of species which a person may retain in a single day.
- (11) "Fresh" means fish or shellfish that are refrigerated, iced, salted, or surface glazed.
  - (12) "Freshwater area" means:
  - (a) Within any freshwater river, lake, stream or pond.
- (b) On the bank or within 10 yards of any freshwater river, lake, stream or pond.
- (c) On or within any boat launch, ramp, or parking facility associated with any freshwater river, lake, stream or pond.
- (13) "Frozen" means fish or shellfish that are hard frozen throughout.
- (14) "Gaffing" means an effort to take fish by impaling the fish with a hook attached directly to a pole or other device.
- (15) "Hatchery" when used to describe the difference between a hatchery fish and a nonhatchery fish, except salmon, means a fish having a clipped adipose fin or a clipped ventral fin with a healed scar at the location of the clipped fin. A hatchery salmon is a salmon having a clipped adipose fin and a healed scar at the location of the clipped fin, regardless of whether the fish is missing a ventral fin.
- (16) "Hook" means one single point, double or treble hook. A "single point hook" means a hook having only one point. A "double hook" means a hook having two points on a common shank. A "treble hook" means a hook having three points on a common shank.
- (17) "Hook and line" or "angling" are identical in meaning and, except as provided in WAC 220-310-110, are defined as the use of not more than one line with three hooks attached to a pole held in hand while landing fish, or the use of a hand operated line without rod or reel, to which may be attached not more than three hooks. When fishing for bottom fish, "angling" and "jigging" are identical in meaning.
- (18) "In the field or in transit" means at any place other than at the ordinary residence of the harvester. An ordinary residence is a residential dwelling where a person normally lives, with associated features such as address, telephone number, utility account, etc. A motor home or camper parked at a campsite or a vessel are not considered to be an ordinary residence.
  - (19) "Juvenile" means a person under fifteen year of age.

- (20) "Lure" means a manufactured article constructed of feathers, hair, fiber, wood, metal, glass, cork, leather, rubber or plastic which does not use scent or flavoring to attract fish. "Nonbuoyant lure" means a lure complete with hooks, swivels or other attachments, which does not float in freshwater.
- (21) "Night closure" means closed to fishing from one hour after official sunset to one hour before official sunrise.
- (22) "Opening day of lowland lake season" means the fourth Saturday in April.
- (23) "Possession limit" means the number of daily limits allowed to be retained in the field or in transit.
- (24) "Processed" means fish or shellfish which have been processed by heat for human consumption as kippered, smoked, boiled, or canned.
- (25) "Steelhead license year limit" means the maximum number of steelhead trout any one angler may retain from April 1st through the following March 31st.
- (26) "Selective gear rules" means terminal fishing gear is limited to artificial flies with barbless single hooks or lures with barbless single hooks and bait is prohibited. Up to three hooks may be used. Only knotless nets may be used to land fish. In waters under selective gear rules, fish may be released until the daily limit is retained.
- (27) "Slough" means any swamp, marsh, bog, pond, side-channel, or backwater connected to a river by water. Waters called sloughs that are not connected to a river are considered lakes.
- (28) "Snagging" means an effort to take fish with a hook and line in a manner that the fish does not take the hook or hooks voluntarily in its mouth.
- (29) "Spearing" or "spear fishing" means an effort to take fish or shellfish by impaling the fish or shellfish on a shaft, arrow or other device.
- (30) "Stationary gear restriction" means the line and weight and lure or bait must be moving while in the water. The line and weight and lure or bait may not be stationary.
- (31) "Steelhead" means sea-run rainbow trout over twenty inches in length.

- (32) "Trolling" means a method of fishing from a vessel or floating device that is underway and under power.
- (33) "Unmarked salmon" means a salmon with intact adipose and ventral fins.
- (34) "Trout" means brown trout, bull trout, cutthroat trout, Dolly Varden, Eastern brook trout, golden trout, grayling, Kokanee (silver trout), lake trout, rainbow trout (except steelhead), tiger trout, and, in WAC 220-312-010 through 220-312-060, salmon from waters designated as "landlocked salmon rules apply."
- (35) "Whitefish gear rules" means terminal fishing gear is restricted to one single hook, maximum hook size three-sixteenths inch point to shank (hook size 14), and bait is allowed. All species: Release all fish except whitefish.
- (36) "Wild" when used to describe the difference between a hatchery fish and a nonhatchery fish, except salmon, means a fish with all fins intact.
- (37) "Wild" when used to describe a salmon (Chinook, coho, chum, pink or sockeye), means a salmon with an unclipped adipose fin, regardless of whether the fish is ventral fin-clipped. A salmon with a clipped adipose fin and a healed scar at the site of the clipped fin is not a wild salmon.
- (38) "Wild cutthroat release" means it is unlawful to retain any cutthroat trout that does not have a clipped adipose fin and a healed scar at the location of the clipped fin.
- (39) "Wild steelhead release" means it is unlawful to retain any steelhead that does not have a clipped adipose or ventral fin and a healed scar at the location of the clipped fin.
- (40) "Shoreline fishing" or "shore fishing" means fishing from shore or a structure affixed to the shore or by wading in the water. [Statutory Authority: RCW 77.04.012, 77.04.013, 77.04.020, 77.04.055, and 77.12.047. WSR 17-16-109 (Order 17-147), § 220-300-160, filed 7/28/17, effective 8/28/17; WSR 17-05-112 (Order 17-04), amended and recodified as § 220-300-160, filed 2/15/17, effective 3/18/17. AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

- WAC 220-310-070 Statewide bait rules. (1) It is unlawful to fish for sturgeon except with bait.
- (2) It is unlawful to use lamprey as fishing bait, regardless of the source or species of lamprey.
  - (3) It is acceptable to use bait in saltwater.
- (4) ((It is unlawful to chum, broadcast, feed, or distribute into freshwater any bait or other substance capable of attracting fish unless specifically authorized in exceptions to statewide rules.
- (5) When fishing for trout with bait, all trout that are lawful to possess and are equal to or greater than the minimum size are counted as part of the daily limit, whether kept or released, and it is unlawful to continue to fish once the daily limit has been achieved, except that steelhead trout may be caught and released until the daily limit is taken.
- (6))) It is unlawful to possess or use live aquatic animals as bait in fresh water except:
- (a) Live aquatic animals (other than fish) collected from the water being fished may be possessed or used as bait.
  - (b) Live sand shrimp may be possessed or used as bait.
- (c) Live forage fish may be possessed or used as bait in the Columbia River downstream of a line projected from Rocky Point on the Washington bank through Red Buoy 44 to the navigation light at Tongue Point on the Oregon bank.
- $((\frac{7}{1}))$  (5) Use of bait in violation of this section is an infraction, punishable under RCW 77.15.160.
- (((8))) (6) It is unlawful to possess fish taken with bait in violation of the provisions of this section. Possession of fish while using bait in violation of the provisions of this section is a rebuttable presumption that the fish were taken with such bait. Violation of this subsection is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree-Penalty, unless the fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.

AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

WAC 220-310-080 Game fish seasons—General rules. It is unlawful to fish for game fish except during the seasons and times below.

- (1) Freshwater lakes, ponds and reservoirs: Open year-round except as provided for in WAC 220-312-010 through 220-312-060.
  - (2) Freshwater rivers, streams, and beaver ponds:
- (a) Rivers, streams, and beaver ponds ((that drain into Puget Sound, the Strait of Juan de Fuca, Pacific Ocean (excluding the Columbia River), Grays Harbor, and Willapa Bay)) are ((closed)) open to fishing for game fish unless otherwise provided in department rule.
- (b) All rivers, streams, and beaver ponds listed in WAC 220-312-010 through 220-312-060: Open the ((first)) Saturday ((in June)) before Memorial Day through October 31 except as otherwise provided for in WAC 220-312-010 through 220-312-060.
- (3) Saltwater (all waters downstream and seaward of the mouths of rivers and streams generally defined in WAC 220-200-060 and specifically defined in WAC 220-300-220): Open year-round, except:
- (a) Lake Washington Ship Canal Those waters of Area 10 west of the Lake Washington Ship Canal to a north-south line 175 feet west of the Burlington-Northern Railroad Bridge are closed waters.
- (b) Toliva Shoal Waters within 500 yards of the Toliva Shoal buoy are closed waters from June 16 through April 30.
- (c) Freshwater Bay Waters south of a line from Angeles Point westerly to Observatory Point are closed July 1 through October 31.
- (d) Tulalip Bay Waters of Tulalip Bay east of a line from Hermosa Point to Mission Point are closed waters.
- (e) Agate Pass Waters of Catch Record Card Area 10 west of a line from Point Monroe to Indianola and east of a line from Point Bolin to Battle Point are closed to game fish angling from January 1 through March 31; however, a person can fish with gear meeting the fly-fishing-only requirements of WAC 220-310-150 as long as he or she does not use lead-core fly line. It is unlawful to retain any fish taken during the period January 1 through March 31.

(f) Those waters of Hood Canal inshore from yellow marker buoys to the mouth of Finch Creek, and waters within the channel created when tidelands are exposed, are closed the entire year.

However, persons with disabilities who permanently use a wheel-chair and who have a designated harvester card under WAC 220-220-240 may fish from the ADA-access site at the Hoodsport Salmon Hatchery, as long as such persons follow all department rules that apply to the adjoining waters of Marine Area 12.

(4) A violation of this section is an infraction, punishable under RCW 77.15.160, unless the person has harvested game fish. If the person has harvested game fish, the violation is punishable under RCW 77.15.380, Unlawful recreational fishing in the second degree—Penalty, unless the game fish are taken in the amounts or manner to constitute a violation of RCW 77.15.370, Unlawful recreational fishing in the first degree—Penalty.

AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

WAC 220-310-090 Game fish possession limits and size limits. It is unlawful to retain or possess game fish taken in excess of the daily, possession, or license year possession limits, or game fish that do not conform to the size limits provided for in this section, unless otherwise provided for in WAC 220-312-010 through 220-312-060.

(1) Daily game fish possession and size limits:

Species	Daily limit	Size limits
Largemouth Bass	No limit for Columbia River downstream of Chief Joseph Dam including all tributaries and their tributaries flowing into the Columbia River downstream of Chief Joseph Dam.	No size restriction.
	5 from lakes, ponds, reservoirs, all other rivers, streams and beaver ponds5	Release bass 12 to 17 inches in length. Not more than 1 largemouth bass 17 inches in length or greater may be retained.
Smallmouth Bass	No limit for Columbia River downstream of Chief Joseph Dam including all tributaries and their tributaries flowing into the Columbia River downstream of Chief Joseph Dam.	No size restriction.
	10 from lakes, ponds, reservoirs, all other rivers, streams and beaver ponds.	No minimum size. Not more than one smallmouth bass over 14 inches in length or greater may be retained.

Species	Daily limit	Size limits
Burbot	5	No size restriction.
Channel catfish	No limit for Columbia River downstream of Chief Joseph Dam including all tributaries and their tributaries flowing into the Columbia River downstream of Chief Joseph Dam.	No size restriction.
	5 from lakes, ponds, reservoirs, all other rivers, streams and beaver ponds.	No size restriction.
Eastern brook trout	((Count as part of the 5 trout daily limit in lakes, ponds and reservoirs.	No size restriction.
	Bonus limit in rivers, streams and beaver ponds. Up to 5 trout including Eastern brook trout may be retained, but not more than 2 of which may be trout other than Eastern brook trout.))  No daily limit	No size restriction.
	((for streams listed in WAC 220 312 020 and 220 312 040, unless otherwise provided in those rules.))	
Grass carp	Unlawful to retain unless otherwise provided in WAC 220-312-020 and 220-312-040.	Not applicable.

Species	Daily limit	Size limits
Tiger Muskellunge	1	Minimum size 50 inches in length.
Kokanee	10 from lakes, ponds and reservoirs.	No size restriction.
Trout (except Eastern brook trout_and Kokanee)	5 from lakes, ponds and reservoirs.	No size restriction.
	2 from rivers, streams, and beaver ponds.	Wild trout 8-inch minimum ((size)) length. Hatchery trout no minimum length.
	The daily trout limit is 5 trout, regardless of origin((, of which not more than 2 may be steelhead)).	
Hatchery steelhead	<u>2</u>	20-inch minimum length.
Walleye	No limit for Columbia River downstream of Chief Joseph Dam including all tributaries and their tributaries flowing into the Columbia River downstream of Chief Joseph Dam.	No size restriction.
	8 from lakes, ponds, reservoirs, all other rivers, streams and beaver ponds.	12-inch minimum size. Not more than 1 walleye greater than 22 inches in length may be retained.
Whitefish	15	No size restriction.
All other game fish	No limit.	No size restriction.

(2) Possession limit: The game fish possession limit in the field or in transit is two daily limits in fresh, frozen or processed form.

- (3) Wild steelhead, Dolly Varden, and bull trout: Except as provided for in this section and WAC 220-312-010 through 220-312-060, it is unlawful to retain wild steelhead, Dolly Varden, or bull trout.
- (4) Saltwater game fish retention: Game fish taken in saltwater may not be retained, except that up to two hatchery steelhead per day may be retained.

[Statutory Authority: RCW 77.04.012, 77.04.013, 77.04.020, 77.04.055, and 77.12.047. WSR 17-05-112 (Order 17-04), amended and recodified as § 220-310-090, filed 2/15/17, effective 3/18/17. WAC 220-312-060 Freshwater exceptions to statewide rules— Columbia. The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

(1) General Columbia River rules:

- (a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.
- (i) Anglers must comply with the fishing regulations of the state in which they are fishing.
- (ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.
- (iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.
- (b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.
- (c) Salmon and trout handling rules provided in WAC 220-56-118 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-56-118 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).
  - (d) From Buoy 10 to the Washington/Oregon border:
- (i) From March 1 through May 15, the mainstem Columbia River is open for retention of adipose fin-clipped steelhead and shad only during days and in areas that are open for the retention of adipose fin-clipped spring Chinook salmon.
- (ii) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.
- (iii) From June 16 through July 31, upstream of the Megler-Astoria Bridge to McNary Dam, night closure in effect for all anglers except those enrolled in the Pikeminnow Sport Reward Program fishing and targeting pikeminnow.
- (iv) From August 1 through December 31, upstream to McNary Dam, night closure in effect for all anglers except those enrolled in the Pikeminnow Sport Reward Program fishing and targeting pikeminnow.
  - (e) Open year-round unless otherwise provided.

- (f) Barbless hooks are required for salmon and steelhead.
- (g) Walleye and bass: No limit and no size restriction.
- (h) Channel catfish: No limit.
- (2) Rules by river section:
- (a) From a true north-south line through Buoy 10, upstream to a line projected from Rocky Point on the Washington bank through Red Buoy 44 to the navigation light at Tongue Point on the Oregon bank:
- (i) Fishing from the north jetty is permissible when Marine Area 1 or Buoy 10 areas are open for salmon, and the limit and minimum size restrictions follow the most liberal regulations if both areas are open. Only single point barbless hooks may be used for salmon and steelhead.
- (ii) Release all trout, except anglers may retain hatchery steel-head.
  - (iii) Salmon and steelhead:
  - (A) Open June 16 through July 31:
- (I) Closed to fishing for salmon and steelhead from Buoy 10 to the Megler-Astoria Bridge.
- (II) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (III) Release all salmon other than sockeye and hatchery Chinook.
  - (B) Open August 1 through September 4:
- (I) Limit 2, of which only one Chinook and/or one hatchery steel-head may be retained except from August 1 through August 31 release all steelhead.
  - (II) Release all salmon except Chinook and hatchery coho.
  - (III) Chinook minimum length 24 inches.
  - (IV) Coho minimum length 16 inches.
  - (C) Open September 5 through September 30:
- (I) Limit 2, of which only one hatchery steelhead may be retained.
  - (II) Release all salmon other than hatchery coho.
  - (III) Coho minimum length 16 inches.
  - (D) Open October 1 through December 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except Chinook and hatchery coho.
  - (E) Open January 1 through March 31:

- (I) Limit 6; no more than 2 adult hatchery Chinook, or 2 hatchery steelhead, or one of each, may be retained.
  - (II) Release all salmon except hatchery Chinook.
  - (iv) Shad open May 16 through March 31.
- (v) Forage fish and bottomfish: Marine Area 1 general rules apply; eulachon closed.
- (b) From a line projected from Rocky Point on the Washington bank through Red Buoy 44 to the navigation light at Tongue Point on the Oregon bank, upstream to the I-5 Bridge:
  - (i) Trout:
  - (A) Open May 16 through March 31.
- (B) Release all trout except hatchery cutthroat and hatchery steelhead (the limit is as provided under (b)(v) of this subsection).
  - (I) Anglers may retain up to 2 hatchery cutthroat.
  - (II) Hatchery cutthroat minimum length 12 inches.
  - (III) Barbless hooks are required for cutthroat trout.
  - (ii) Salmon and steelhead:
  - (A) Open May 16 through June 15:
  - (I) Release all salmon except hatchery jack Chinook.
  - (II) Limit 6; no more than 2 hatchery steelhead may be retained.
  - (B) Open June 16 through July 31:
  - (I) Release all salmon except hatchery Chinook and sockeye.
- (II) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (C) Open August 1 through September 30:
- (I) Upstream of Warrior Rock line: Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained. Release all salmon except Chinook and hatchery coho. From August 1 through August 31 release all steelhead.
- (II) Downstream of Warrior Rock line: Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained. Only one may be an adult Chinook. Release wild Chinook from September 8 through September 14, and release all Chinook from September 15 through September 30. From August 1 through August 31 release all steelhead.
- (D) For the purpose of this subsection, "Warrior Rock line" is defined as a line projected from the Warrior Rock Lighthouse, through

Red Buoy 4, to the orange marker atop the dolphin on the Washington shore.

- (E) Open October 1 through December 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except Chinook and hatchery coho.
  - (F) Open January 1 through March 31:
- (I) Limit 6 fish; no more than 2 adult hatchery Chinook, or 2 hatchery steelhead, or one of each, may be retained.
  - (II) Release all salmon except hatchery Chinook.
  - (iii) Shad open May 16 through March 31.
  - (c) From the I-5 Bridge to Bonneville Dam:
  - (i) The following waters are closed:
- (A) From the upstream line of Bonneville Dam to boundary markers 600 feet below the fish ladder at the powerhouse.
- (B) January 1 through April 30 from a line between the upstream end of Sand Island (near Rooster Rock) on the Columbia River, to the boundary marker on the Oregon shore, downstream to a line between the lower end of Sand Island and the boundary marker on the Oregon shore.
- (C) Closed to angling from a floating device or by any method except hand-casted gear from shore from Bonneville Dam downstream to a line from the Hamilton Island boat ramp to an Oregon boundary marker on the westernmost tip of Robins Island.
  - (ii) Camas Slough:
- (A) It is permissible for an angler licensed in Oregon or Washington to fish from a floating device.
- (B) In the waters of the Columbia River downstream from the mouth of the Washougal River, north of Lady Island, and downstream of the Highway 14 Bridge at the upstream end of Lady Island:
- (I) From August 1 through December 31: It is permissible to fish with two poles so long as the angler possesses a valid two-pole endorsement.
- (II) From August 1 through December 31: Each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.
- (III) Open for salmon when the adjacent mainstem Columbia or Washougal rivers are open for salmon.

- (IV) The limit for salmon is the same as the most liberal regulation of either area, except anglers may only retain hatchery Chinook and hatchery coho; release all other salmon.
  - (iii) Release all trout except hatchery steelhead.
  - (iv) Salmon and steelhead:
  - (A) Open June 16 through July 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except hatchery Chinook and sockeye.
  - (B) Open August 1 through December 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained, except August 1 through August 31 release all steelhead.
  - (II) Release all salmon except Chinook and hatchery coho.
- (III) Closed to fishing for salmon and steelhead November 1 through December 31 from Beacon Rock to Bonneville Dam.
- (v) Steelhead: Open January 1 through March 31. Daily limit 2 hatchery steelhead.
  - (vi) Shad: Open May 16 through March 31.
  - (d) From Bonneville Dam to The Dalles Dam:
  - (i) Closed waters:
- (A) Within one quarter mile of the USFWS Spring Creek Hatchery Grounds, between posted markers located one quarter mile on either side of the fish ladder entrance.
- (B) At The Dalles between the upstream line of The Dalles Dam to the upstream side of the Interstate 197 Bridge, except that bank fishing is permitted up to the downstream navigation lock wall on the Washington shore.
- (ii) Release all trout, except anglers may retain hatchery steelhead.
  - (iii) Salmon and steelhead:
  - (A) When open from March 16 through June 15:
- (I) Bank fishing only from Bonneville Dam to Tower Island powerlines (approximately 6 miles below The Dalles Dam).
- (II) Only hand-cast lines may be used. It is unlawful to use a floating device to set lines for salmon and steelhead.
  - (B) Open June 16 through July 31:

- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except sockeye and hatchery Chinook.
  - (C) Open August 1 through December 31:
- (I) August 1 through October 15: Anti-snagging rule applies. When the anti-snagging rule is in effect, only fish hooked inside the mouth may be retained.
- (II) Limit 6; no more than 2 adult salmon, one adult salmon and one hatchery steelhead may be retained, except from August 1 through August 31 release all steelhead.
  - (III) Release all salmon except Chinook and coho.
  - (IV) Release wild coho from Bonneville Dam to Hood River Bridge.
- (iv) Steelhead: Open January 1 through March 31. Daily limit 2 hatchery steelhead.
  - (e) From The Dalles Dam to McNary Dam:
  - (i) Closed waters:
- (A) At John Day Dam between the upstream line of John Day Dam to markers approximately 3,000 feet downstream, except that bank fishing is permitted up to 400 feet below the fishway entrance on the Washington shore.
- (B) At McNary Dam between the upstream line of McNary Dam downstream to a line across the river from the red and white marker on the Oregon shore on a line that intersects the downstream end of the wingwall of the boat lock near the Washington shore.
  - (ii) Release all trout except hatchery steelhead.
  - (iii) Salmon and steelhead:
  - (A) When open from March 16 through June 15:
- (I) Anglers may possess up to 4 hatchery adult Chinook salmon in fresh form.
- (II) Anglers aboard a boat may only possess one daily limit of salmon in fresh form.
  - (B) Open June 16 through July 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except hatchery Chinook and sockeye.
  - (C) Open August 1 through December 31:

- (I) August 1 through October 15: Anti-snagging rule applies. When the anti-snagging rule is in effect, only fish hooked inside the mouth may be retained.
- (II) Limit 6; no more than 2 adults, of which no more than 2 may be adult salmon or one adult salmon and one hatchery steelhead, except release all steelhead from The Dalles Dam upstream to John Day Dam September 1 through September 30 and from John Day Dam upstream to McNary Dam September 1 through October 31.
  - (III) Release all salmon except Chinook and coho.
- (iv) Steelhead: Open January 1 through March 31. Daily limit 2 hatchery steelhead.
  - (f) From McNary Dam to Highway 395 Bridge at Pasco:
- (i) Columbia River rules apply downstream of the Burbank-to-Pasco railroad bridge at Snake River mile 1.5.
- (ii) From June 16 through December 31, night closure in effect for all anglers except anglers enrolled in the Pikeminnow Reward Program fishing and targeting pikeminnow.
  - (iii) Release all trout except hatchery steelhead.
  - (iv) Salmon and steelhead:
- (A) When open from March 16 through June 15 from McNary Dam to the Washington/Oregon border:
- (I) Anglers may possess up to 4 hatchery adult Chinook in fresh form.
- (II) Anglers aboard a boat may only possess one daily limit of salmon in fresh form.
  - (B) Open June 16 through July 31:
- (I) Limit 6; no more than 2 adult salmon, or one adult salmon and one hatchery steelhead, may be retained.
  - (II) Release all salmon except hatchery Chinook and sockeye.
  - (C) Open August 1 through December 31:
- (I) Limit 6; no more than 2 adult salmon or one adult salmon and one hatchery steelhead may be retained, except October 1 through November 30 release all steelhead.
  - (II) Release all salmon except Chinook and coho.
- (III) Each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.

- (v) Steelhead: Open January 1 through March 31. Daily limit 2 hatchery steelhead.
- (g) From the Highway 395 Bridge at Pasco to the Interstate 182 Bridge:
- (i) Closed waters: Within a 400 foot radius of the Columbia Irrigation District (CID) fish barrier at the mouth of the CID wasteway at Columbia Park.
- (ii) For all open species except sturgeon: It is permissible to fish with two poles so long as the angler possesses a two-pole endorsement.
- (iii) From October 1 through December 31, night closure in effect for all anglers except anglers enrolled in the Pikeminnow Reward Program fishing and targeting pikeminnow.
  - (iv) Trout:
- (A) October 1 through December 31 release all trout, except one hatchery steelhead with both the adipose and a ventral fin clipped may be retained.
- (B) January 1 through March 31 release all trout, except anglers may retain one hatchery steelhead.
  - (v) Salmon:
  - (A) Open June 16 through August 15:
- (I) Limit 4; no more than one adult hatchery Chinook salmon and no more than 2 sockeye salmon may be retained.
  - (II) Release wild adult Chinook.
- (B) Open August 16 through October 22: Limit 6; no more than 2 adult salmon may be retained. Once the adult salmon or steelhead limit is retained, anglers may not continue to fish for either species the remainder of the day.
- (h) From the Interstate 182 Bridge to the Old Hanford townsite wooden powerline towers, in Sec. 30, T13N, R28E:
  - (i) Closed waters:
- (A) The area of the Columbia River between the markers located 100 feet upstream and 100 feet downstream of the Ringold Springs Hatchery Creek, and extending 100 feet towards the middle of the river.
- (B) September 1 through November 30: West Branch Esquatzel Coulee Block 1 Irrigation Wasteway Lagoon in the Columbia River.

- (ii) Ringold Area Bank Fishery waters, from WDFW markers 1/4 mile downstream from the Ringold wasteway outlet, to WDFW markers 1/2 mile upstream from Spring Creek:
- (A) Fishing is allowed only from the bank and only on the hatchery side of the river.
- (B) Release all trout, except anglers may retain one hatchery steelhead from April 1 through April 15.
- (iii) For all open species except sturgeon: It is permissible to fish with two poles so long as the angler possesses a two-pole endorsement.
- (iv) From October 1 through December 31, night closure in effect for all anglers except anglers enrolled in the Pikeminnow Reward Program fishing and targeting pikeminnow.
  - (v) Trout:
- (A) October 1 through December 31 release all trout, except one hatchery steelhead with both the adipose and a ventral fin clipped may be retained.
- (B) January 1 through March 31 release all trout, except anglers may retain one hatchery steelhead.
  - (vi) Salmon:
  - (A) Open June 16 through August 15:
- (I) Limit 6; no more than 2 adult hatchery Chinook and no more than 3 sockeye salmon may be retained.
  - (II) Release wild adult Chinook.
- (B) Open August 16 through October 22: Limit 6; no more than 2 adult salmon may be retained. Once the adult salmon or steelhead daily limit has been retained, anglers may not continue to fish for either species the remainder of the day.
- (i) From the Old Hanford townsite wooden power line towers, in Sec. 30, T13N, R28E, to Vernita Bridge, (Highway 24):
  - (i) Open February 1 through October 22.
- (ii) For all open species except sturgeon: It is permissible to fish with two poles so long as the angler possesses a two-pole endorsement.
  - (iii) Trout: Catch and release only.
  - (iv) Salmon:
  - (A) Open June 16 through August 15:

- (I) Limit 6; no more than 2 adult hatchery Chinook and no more than 3 sockeye salmon may be retained.
  - (II) Release wild adult Chinook.
- (B) Open August 16 through October 22: Limit 6; no more than 2 adult salmon may be retained.
  - (j) From Vernita Bridge (Highway 24) to Priest Rapids Dam:
  - (i) Closed waters:
- (A) At Priest Rapids Dam; waters between the upstream line of Priest Rapids Dam downstream to the boundary markers 650 feet below the fish ladders.
- (B) At Jackson (Moran) Creek((<del>, or</del>)) (waters of the Priest Rapids Hatchery ((Outlet Creek; waters of the Priest Rapids Hatchery system to the outlet on the Columbia River, )) system); extending to midstream of the Columbia River between boundary markers located 100 feet upstream and 400 feet downstream of the mouth of Jackson Creek.
- (ii) For all open species except sturgeon: It is permissible to fish with two poles so long as the angler possesses a two-pole endorsement.
  - (iii) Trout: Catch and release only.
  - (iv) Salmon:
  - (A) Open June 16 through August 15:
- (I) Limit 6; no more than 2 adult hatchery Chinook and no more than 3 sockeye salmon may be retained.
  - (II) Release wild adult Chinook.
- (B) Open August 16 through October 22: Limit 6; no more than 2 adult salmon may be retained.
  - (k) From Priest Rapids Dam to Rock Island Dam:
  - (i) Closed waters:
- (A) Wanapum Dam, between the upstream line of Wanapum Dam to the boundary markers 750 feet downstream of the east fish ladder and 500 feet downstream of the west fish ladder.
- (B) Rock Island Dam, between the upstream line of Rock Island Dam to boundary markers 400 feet downstream of the fish ladders.
- (ii) July 1 through August 31: Fishing two poles is permissible so long as the angler possesses a two-pole endorsement.
  - (iii) Release all trout.
  - (iv) Salmon:
  - (A) Open July 1 through August 31:

- (I) Minimum size 12 inches; limit 4; no more than 2 adult hatchery Chinook may be retained.
  - (II) Release coho and wild adult Chinook.
- (B) Open September 1 through October 22: Open for Chinook only; limit 6, no more than 3 adults may be retained.
  - (1) From Rock Island Dam to Wells Dam:
  - (i) Closed waters:
- (A) At Rocky Reach Dam between the upstream line of the dam to boundary markers 400 feet downstream of the fish ladders.
- (B) At Wells Dam, between the upstream line of Wells Dam to boundary markers 400 feet downstream of the spawning channel discharge (on Chelan County side) and fish ladder (on Douglas County side).
- (ii) July 1 through August 31: Fishing two poles is permissible so long as the angler possesses a two-pole endorsement.
  - (iii) Release all trout.
  - (iv) Salmon open July 1 through October 15:
- (A) Minimum size 12 inches; limit 4; no more than 2 adult hatchery Chinook may be retained.
  - (B) Release coho and wild adult Chinook.
  - (m) From Wells Dam to Highway 173 Bridge at Brewster:
- (i) July 16 through August 31: Fishing two poles is permissible so long as the angler possesses a two-pole endorsement.
- (ii) Hatchery trout: Open July 16 through August 15. Minimum size 12 inches. Daily limit 10. Barbless hooks required.
  - (iii) Salmon open July 16 through August 31:
- (A) Minimum size 12 inches; limit 4; no more than 2 adult hatchery Chinook may be retained.
  - (B) Release coho and wild adult Chinook.
  - (n) From Highway 173 Bridge at Brewster to Chief Joseph Dam:
  - (i) Closed waters:
- (A) From the Okanogan County shore between Chief Joseph Dam and the Highway 17 Bridge.
- (B) From the Douglas County shore from Chief Joseph Dam to the rock jetty at the upstream shoreline of Foster Creek.
- (ii) July 1 through August 31: Fishing two poles is permissible so long as the angler possesses a two-pole endorsement.

- (iii) It is unlawful to fish from a floating device downstream of Chief Joseph Dam from the boundary marker to the Corps of Engineers safety zone marker.
- (iv) Hatchery trout: Open July 1 through August 15. Minimum 12 inches. Daily limit 10. Barbless hooks required.
  - (v) Salmon: Open July 1 through October 15:
- (A) Minimum size 12 inches; limit 4; no more than 2 adult hatchery Chinook may be retained.
  - (B) Release coho and wild adult Chinook.
- (o) **Above Chief Joseph Dam:** See Rufus Woods Lake in WAC 220-310-195.
