Summary Sheet

Meeting dates:	March 16-17, 2018
Agenda item:	Hunting Boundaries – Briefing and Public Hearing
Presenter(s):	Jerry Nelson, Ph.D., Deer and Elk Section Manager, Game Division, Wildlife Program

Background summary:

Staff will brief the Commission on proposed amendments to WAC 220-410-050 Game management units (GMUs) boundary descriptions-Region five, WAC 220-413-030 Importation and retention of dead nonresident wildlife, WAC 220-413-180 Special closures and firearm restriction areas, WAC 220-415-010 Deer area descriptions, and WAC 220-415-040 Elk area descriptions.

- Clarify the boundary language for GMU 522 Loo Wit and GMU 560 Lewis River.
- Eliminate the three Deer Areas surrounding Spokane and the Deer Area near Colfax. These are either ineffective or no longer needed.
- Add the North Issaquah Deer Area in King and Snohomish counties to help mitigate deer conflict issues.
- Make permanent Elk Area 1075 in Asotin County.
- In response to changes in a state park holding, clarify the boundary language for Elk Area 4601 in King County.
- Expand the boundary of Elk Area 5099 to provide more area to hunt and to make the boundary more discernable.
- Adjust the boundary of Elk Area 6014 to better mitigate elk conflict issues.
- Add Elk Area 6612 near Forks to help mitigate elk conflict issues using recreational hunting.
- Add mountain goat as an exception to the hunting restriction in GMU 522.
- Clarify firearm restriction in a portion of GMU 652 in King County.
- Because Montana and Mississippi have identified chronic wasting disease in wild free ranging deer, the department seeks to mitigate the risk to Washington's deer, elk, and moose populations by adding the states of Montana and Mississippi to WAC 220-413-030.

Policy issue(s) you are bringing to the Commission for consideration:

- Maximize recreational hunting opportunity.
- Continue sustainable hunting seasons.
- Address wildlife conflict issues by using recreational hunters whenever possible.

Fiscal impacts of agency implementation:

No fiscal impacts beyond the status quo.

Public involvement process used and what you learned:

The department conducted an extensive public involvement process to develop the 2018-2020 hunting season proposals. Six open house, public meetings were conducted throughout the state in July and August of 2017, to discuss a variety of issues with constituents. Concurrently, the public was asked to provide input on hunting seasons via the department website for a 6-

week time period. The department emailed over 119,000 hunters notifying them of the website survey and encouraging them to participate. The department received over 3,900 responses related to deer and elk hunting seasons. Using that information, the department determined which recommendations would move forward.

In preparation for this meeting, notification was made to approximately 12,000 individuals and organizations informing them of the opportunity to provide comment on the proposed regulation amendments. Additionally, these individuals and organizations were informed of the opportunity to provide verbal testimony at the March 16-17, 2018 Commission meeting in Wenatchee.

Action requested:

Take public comment. Adoption of rules is planned for the April 13-14, 2018 Commission meeting.

Draft motion language:

N/A – Briefing and public hearing only.

Justification for Commission action:

N/A – Briefing and public hearing only.

AMENDATORY SECTION (Amending WSR 17-10-076, filed 5/3/17, effective 6/3/17)

WAC 220-413-030 Importation and retention of dead nonresident wildlife. (1) It is unlawful:

(a) To import or possess dead wildlife, taken in another state or country, into Washington unless such wildlife was acquired lawfully. Proof of legal acquisition must be retained during the period of retention of the carcass or edible parts.

(b) For a person who imports a dead bighorn sheep, mountain goat, cougar or bear to fail to report such importation to the department in writing within ten days of the importation. The report must contain the name and address of the importer, the location where the dead wildlife is being stored, and general information describing where and how the wildlife was obtained.

(c) To import or possess deer, elk, or moose, or parts thereof, harvested in Pennsylvania, Texas, Missouri, Colorado, Wyoming, Utah, New Mexico, Wisconsin, Illinois, South Dakota, Nebraska, Kansas, New York, West Virginia, Virginia, North Dakota, Alberta, Maryland, Minnesota, Montana, Mississippi, Iowa, Arkansas, Michigan, and Saskatchewan, with the following exceptions:

(i) Meat that has been deboned in the state or province where it was harvested and is imported as boned-out meat;

(ii) Skulls and antlers, antlers attached to the skull plate, or upper canine teeth (buglers, whistlers, ivories) from which all soft tissue has been removed;

(iii) Hides or capes without heads attached;

(iv) Tissue imported for use by a diagnostic or research laboratory; and

(v) Finished taxidermy mounts.

(2) Violation of subsection (1) of this section is punishable under RCW 77.15.290 Unlawful transportation of fish or wildlife—
Penalty.

(3) It is unlawful for an importer or receiver of deer or elk to fail to notify the department within twenty-four hours if a state or province alerts the importer or receiver that a harvested animal has tested positive for chronic wasting disease. Violation of this subsection is an infraction punishable under RCW 77.15.160 Infractions.

WAC 220-413-030 Importation and retention of dead nonresident wildlife.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Page 13

- Change: In section (1)(c), add Mississippi to the list of states. The Fish and Wildlife Commission requires hunters to invoke additional processing of carcasses before deer, elk, or moose harvested in the listed states and provinces, can be brought home to Washington State.
- Rationale: The state of Mississippi has confirmed their first positive case of Chronic Wasting Disease (CWD) in wild, free-ranging deer.

Summary of Public Comments Received During the Official Comment Period and WDFW Response:

WAC 220-413-030 Importation and retention of dead nonresident wildlife.

Supporting Comments:

There were 20 comments in support of the proposed rule amendment.

Opposing, Neutral, and Other Comments:

There were five (5) comments that were in opposition to the proposed rule change. There was one (1) comment that was neutral with regard to the proposed changes.

Direction and Rationale:

The existing rule helps reduce the risk that Chronic Wasting Disease (CWD) will be imported into Washington State by bringing in unprocessed deer, elk, or moose that were harvested in states that have detected CWD in wild free-ranging animals. The department will be moving forward with the recommendation to add the states of Montana and Mississippi to the list of states and provinces from which harvested deer, elk, and moose must undergo extensive processing before being imported to the state of Washington.

WAC 220-413-180 Special closures and firearm restriction areas.

(1) RESTRICTED HUNTING AREAS.

It is unlawful to hunt in the following restricted hunting areas unless otherwise provided:

(a) Parker Lake (GMU 117, Pend Oreille County): All lands south of Ruby Creek Road (USFS Road 2489), north of Tacoma Creek Road (USFS Road 2389), and west of Bonneville Power Administration power lines are designated as "CLOSED AREA" to hunting wild animals and wild birds year-round except for special hunts adopted by the fish and wildlife commission. The Parker Lake closure provides a protected area for the U.S. Air Force Military Survival Training Program.

(b) Columbia River: The Columbia River, all islands except privately owned, in the river, the Benton County shoreline below the high water mark, Central Hanford Department of Energy property, and any peninsula originating on the Benton County shoreline, between Vernita Bridge on Highway 24 downstream to the Richland city limits are designated as a "CLOSED AREA" to hunting wild animals and wild birds except waterfowl hunting is open below the high water mark between the old Hanford townsite power line crossing (wooden towers) in Section 24, T 13 N, R 27 E, and the Richland city limits.

(c) Green River (GMU 485): Except for special permit hunters, who may also take a black bear and/or cougar with the appropriate license/tag options, all lands within GMU 485 are designated as a "CLOSED AREA" to hunting big game year-round. During the general westside elk season and general and late deer seasons, all lands within GMU 485 year-round are also designated as a "CLOSED AREA" to hunting all wild animals, including wild birds, year-round. The city of Tacoma enforces trespass within GMU 485 year-round on lands owned or controlled by the city.

(d) McNeil Island (part of GMU 652): Closed to hunting all wild animals, including wild birds, year-round.

(e) Loo-wit (GMU 522): Closed to hunting and trapping, except for elk and mountain goat hunting by special permit holders during established seasons and in designated areas.

(2) A violation of subsection (1) of this section is punishable under RCW 77.15.400, 77.15.410, or 77.15.430, depending on the species hunted.

(3) CLOSED BIG GAME HUNTING AREAS.

It is unlawful to hunt big game in the following closed areas, unless otherwise specified:

(a) Clark, Cowlitz, Pacific, and Wahkiakum counties: Closed to hunting for Columbian whitetail deer.

(b) Cathlamet: Except for special permits issued by the department for nonendangered deer and elk, this area is closed to all deer and elk hunting to protect the Columbian whitetail deer. This area's boundaries are described as:

Beginning in the town of Skamokawa; then east along SR 4 to Risk Road; then south and east along Risk Road to Foster Road; then south along the Foster Road to the Elochoman River; then upstream along the Elochoman River to Elochoman Valley Road (old SR 407); then west along the Elochoman Valley Road to SR 4; then east along SR 4 to SR 409; then south along SR 409 to the Cathlamet Channel of the Columbia River; then east along the north shore of the Cathlamet Channel to Cape

Horn; then south in the Columbia River to the state line; then west along the state line to a point directly south of the mouth of Skamokawa Creek; then north on Skamokawa Creek to SR 4 and the point of beginning.

(c) Walla Walla Mill Creek Watershed (GMU 157): All lands in the Mill Creek Watershed are designated as a "CLOSED AREA" to hunting all wild animals, including wild birds. The only exception is for deer or elk hunting by holders of GMU-157 special deer or elk permits during the established open season. These permit holders must have a U.S. Forest Service permit to enter the hunt area, and the area is closed to motorized vehicles. No entry into the Mill Creek Watershed is allowed at other times.

(d) Westport: Closed to hunting all big game animals on the part of Westport Peninsula lying north of State Highway 105 from the Elk River Bridge west end and the Schafer Island Road to the ocean beach.

(e) Cottonwood and Howard islands (GMU 564): Closed to all deer hunting.

(4) A violation of subsection (3) of this section is a gross misdemeanor or a class C felony punishable under RCW 77.15.410, depending on the circumstances of the violation.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Page 33

- Change: Add new Elk Area No. 1082 George Creek.
- Rationale: This Elk Area will help direct hunters to an area that is smaller scale than the Game Management Unit (GMU). This will help facilitate using hunting as a tool to help mitigate damage.

Pages 39-40

- Change: Remove the proposed new Elk Area No. 4542 South Issaquah.
- Rationale: Further discussions with the Muckleshoot Indian Tribe are warranted before developing the final boundary language on this proposed Elk Area. If all parties' needs can be met, a new proposal will be brought before the Fish and Wildlife Commission at a later date.

Page 56

- Change: In the Elk Area 6612 Forks description, exclude Bogachiel state park, and add further language that distinguishes that the upstream direction after the confluence of the Calawah and Bogachiel River is on the Bogachiel River.
- Rationale: These changes will make the Elk Area boundary more discernable and will not include the state park where hunting is not allowed.

Summary of Public Comments Received During the Official Comment Period and WDFW Response:

WAC 220-415-040 Elk area descriptions.

Supporting Comments:

There were ten (10) comments in support of this proposed rule change. One (1) comment pointed out that a new Elk Area was missing from the boundary descriptions. That has since been corrected through the recommended adjustments process.

Opposing, Neutral, and Other Comments:

There were four (4) comments in opposition to the proposed rule amendments. Two (2) of those comments actually pertained to the Elk Area boundaries. One (1) comment pointed out issues with one of the proposed Elk Areas and subsequently that Elk Area was removed from the proposal through the recommended adjustments process. There were six (6) comments that were neutral with regard to the proposed rule amendments.

Direction and Rationale:

The department will be moving forward with the proposed amendments to the rule including the changes that were made through the recommended adjustments process.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

WAC 220-400-050 Requirements for sealing of pelts and collection of biological information for river otter, cougar, lynx, and bobcat.

The purpose of the proposal is to simplify the sealing requirements for bobcat and cougar pelts by aligning the date for sealing bobcat with the last date of trapper reporting and by requiring cougar pelt sealing to occur within 72 hours of harvest. The proposed changes align the dates for pelt sealing each species, regardless of method or reporting of harvest.

WAC 220-410-040 Game management units (GMUs) boundary descriptions-Region four.

The purpose of the proposal is to clarify boundary language as it pertains to Game Management Unit 485 Green River. The existing language can be somewhat complicated. The proposed changes take advantage of the well-marked boundaries of the watershed which are identical to the GMU boundary.

WAC 220-410-050 Game management units (GMUs) boundary descriptions-Region five.

The purpose of the proposal is to clarify boundary language as it pertains to Game Management Units 522 Loo Wit and 560 Lewis River. The proposed changes clarify directional movements on established roads that make up the boundaries.

WAC 220-412-070 Big game and wild turkey auction, raffle, and special incentive permits.

This proposal replaces GMU 172 with GMU 169 for the Rocky Mountain bighorn sheep raffle permit holder.

WAC 220-412-080 Special hunting season permits.

This proposal revises wording in the "once in a lifetime" part of special hunting permits for moose, to reflect the proposed change in hunt categories from "any moose" to "antlered bull moose." Any "point" accumulated under the "any moose" category will be transferred to the "antlered bull moose" category.

Additionally applicants for special hunting season permits will be required to either complete hunter education prior to submitting a permit application, or be exempt from the hunter education requirement.

WAC 220-412-100 Landowner hunting permits.

This proposal modifies hunt dates on properties enrolled in WDFW's Landowner Hunting Permit (LHP) program for the 2018 hunting seasons. These sites offer special hunting opportunities to the public through permits issued by WDFW, raffles, or selection by the landowner.

WAC 220-413-030 Importation and retention of dead nonresident wildlife.

The proposal will ban the importation and retention of specific parts of dead nonresident wildlife that could contain Chronic Wasting Disease (CWD) from Montana. Specific circumstances are fully set forth in WAC 220-413-030 to include the state of Montana.

WAC 220-413-070 Hunting with aid of aircraft, boats or other vehicles.

The purpose of this proposal is to add unmanned aircraft to the rule that restricts the use of aircraft, boats, or other types of vehicles to hunt, spot, or harass wildlife.

WAC 220-413-100 Mandatory report of hunting activity.

The proposal will change the reporting deadline for brant, sea duck, and snow goose to March 20 following the season for which the harvest card was issued, and adds a harvest report card requirement for the SW Canada Goose special species authorization.

WAC 220-413-180 Special closures and firearm restriction areas.

The purpose of the proposal is to modify restrictions in the Special Closures and Firearm Restriction rule by:

Adding mountain goat as an exception to the hunting restriction in GMU 522.

Clarifying and adding exceptions to the firearm restriction that exists in a portion of GMU 652.

Removing a firearm restriction area in Kitsap County that is no longer needed.

WAC 220-414-060 Muzzleloading firearms.

The purpose of the proposal is to eliminate the restriction that disallows the use of primers, designed for modern cartridges in the firearms ignition system, during muzzleloader hunting seasons. Such a rule change will allow more technologically advanced muzzleloaders to be used during muzzleloader seasons.

WAC 220-414-080 Hunting—Hunter orange clothing requirements.

This proposal adds turkey to the hunter orange rule and requires turkey hunters that are hunting during a modern deer or elk firearm season to wear florescent orange.

WAC 220-415-010 Deer area descriptions.

The purpose of the proposal is to eliminate the three Deer Areas surrounding Spokane and the Colfax Deer Area that are either ineffective or no longer needed and add the North Issaquah Deer Area in King and Snohomish Counties to help mitigate deer conflict issues. Deer Areas allow the department to focus deer hunting pressure on a smaller scale than the Game Management Unit. Deer Areas help expand hunting opportunity that would normally not be available. Deer Areas also help accommodate wildlife conflict mitigation using hunting as a tool.

WAC 220-415-020 2015-2017 Deer general seasons and definitions.

The purpose of this proposal is to retain general season deer hunting opportunity for 2018-2020. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

WAC 220-415-030 2017 Deer special permits.

The purpose of this proposal is to retain special permit deer hunting opportunity for 2018. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

WAC 220-415-040 Elk area descriptions.

The purpose of the proposal is to add new Elk Areas or adjust the boundaries of existing Elk Areas. Elk Areas allow the department to focus elk hunting pressure on a smaller scale than the Game Management Unit. Elk Areas help expand hunting opportunity that would normally not be available. Elk Areas also help accommodate wildlife conflict mitigation using hunting as a tool.

WAC 220-415-050 2015-2017 Elk general seasons and definitions.

The purpose of this proposal is to retain general season elk hunting opportunity for 2018-2020. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when elk populations allow, and reduces the opportunity when declining elk numbers warrant a change.

WAC 220-415-060 2017 Elk special permits.

The purpose of this proposal is to retain elk special permit hunting opportunity for 2018. The purpose is also to balance the elk hunting opportunity between user groups. The proposal also increases elk hunting opportunity when elk populations allow, and reduces elk hunting opportunity when declining elk numbers warrant a change.

WAC 220-415-070 2017 Moose seasons, permit quotas, and areas.

The purpose of this proposal is to remove hunt category "any moose," replacing it with "any antlered bull moose;" require successful moose hunters to submit an incisor tooth by mail to WDFW for ageing; add "or archery" to the list of permitted weaponry for moose hunting in the Parker Lake special hunt area; and changes in permit levels.

WAC 220-415-080 2018 Spring black bear seasons and regulations.

The purpose of the proposed amendments is to align the rules with the appropriate season dates; require a bear identification test for hunters that will hunt within grizzly bear recovery areas as identified by the department; expand the biological samples that may be collected by the department; and include results for failure to report or comply with the conditions of the rule.

WAC 220-415-090 2015-2017 Fall black bear hunting seasons and regulations.

The purpose of the proposed amendments is to align the rules with the appropriate season dates; remove game management units that do not have resident bear populations; require a bear identification test for hunters that will hunt within grizzly bear recovery areas as identified by the department; expand the biological samples that may be collected by the department; and include results for failure to report or comply with the conditions of the rule.

WAC 220-415-100 2016-2017 and 2017-2018 Cougar hunting seasons and regulations.

The purpose of the proposed amendments is to align the rules with the appropriate season dates; align the cougar season with the license year and thereby minimize potential confusion by hunters; and align the late cougar season start date with the closing date of the general deer and elk seasons for modern firearm and muzzleloader with the exception of a few Master Hunter antlerless elk seasons that continue into January.

WAC 220-415-120 2017 Bighorn sheep seasons and permit quotas.

The purpose of the proposal is to initiate modest ewe (bighorn sheep female) harvests in two separate areas of the Lincoln Cliffs bighorn sheep populations. Additionally, increase harvest of both rams and ewes in the Chelan Butte population.

WAC 220-415-130 2015-2017 Mountain goat seasons and permit quotas.

The purpose of the proposal is to require holders of mountain goat hunting permits to pass an online test of their ability to distinguish mountain goats by gender (i.e., billy vs. nanny) before they would be allowed to purchase their mountain goat hunting license; establish new mountain goat hunting seasons in Mt. Margaret back-country, and Mt. St. Helens South (one permit in each area); and split the existing Goat Rocks mountain goat hunt area into two contiguous areas.

WAC 220-416-010 2015-16, 2016-17, 2017-18 Small game and other wildlife seasons and regulations.

The purpose of the proposal is to make date adjustments related to calendar changes; extend the fall turkey season in GMUs 101-154 and 162-186; remove the draw permits from Klickitat County and opens GMUs within that county to general season hunting; and prohibit night hunting in GMUs that fall within the lynx management zones as identified by the department.

WAC 220-416-060 2017-2018 Migratory waterfowl seasons and regulations.

The purpose of the proposal is to specify legal season dates and bag limits for the 2018-2019 season.

WAC 220-440-030 Public Safety Cougar Removals.

This proposal changes the current Public Safety Cougar Removal from a hunting opportunity authorizing the use of hounds, when certain conditions are met, to a permit program to provide training opportunities for owners of "working dogs" who are often summoned by WDFW Law Enforcement to assist in resolving wildlife conflict issues. If approved, this new program will allow working dogs and their owners the non-lethal pursuit of cougars under the conditions of a training permit.

Reasons supporting proposal:

WAC 220-400-050 Requirements for sealing of pelts and collection of biological information for river otter, cougar, lynx, and bobcat.

The proposed amendments will make the sealing requirements consistent for each species and thereby easily understood by user groups. The proposed changes will also make managing cougar hunt unit closures more efficient and timely.

WAC 220-410-040 Game management units (GMUs) boundary descriptions-Region four.

The proposed amendments will make the boundaries more discernable for hunters. The proposed changes will also make enforcement of hunting season rules and trespass rules more straightforward.

WAC 220-410-050 Game management units (GMUs) boundary descriptions-Region five.

The proposed amendments will make the boundaries more discernable for hunters. The proposed changes will also make enforcement of hunting season rules more straightforward.

WAC 220-412-070 Big game and wild turkey auction, raffle, and special incentive permits.

The proposed amendments will redirect hunters from a small herd that has few mature rams to a herd that can more easily support removal of a large-sized ram.

WAC 220-412-080 Special hunting season permits.

The proposed amendments will maintain consistency with proposed changes in the WAC 220-415-070 and requirements elsewhere in WAC that applicants for special permits possess the necessary qualifications to hunt under that permit should they be drawn.

WAC 220-412-100 Landowner hunting permits.

Several years ago, the Fish and Wildlife Commission developed a policy to expand the private lands available to the general public for hunting. One of the programs that was authorized is the Landowner Hunting Permit Program. This program encourages landowners to provide opportunity to the general hunter in exchange for customized hunting seasons and the ability to generate funding to offset the cost of providing public access.

WAC 220-413-030 Importation and retention of dead nonresident wildlife.

Because Montana has identified chronic wasting disease in wild free ranging deer, the department seeks to mitigate the risk to public health and safety by adding the state of Montana to WAC 220-413-030.

WAC 220-413-070 Hunting with aid of aircraft, boats or other vehicles.

Small unmanned aircraft have become a part of modern culture. Unmanned aircraft use is pervasive. In the same spirit of hunting ethics that inspired the Fish and Wildlife Commission to promulgate a rule that restricts the use of vehicles, aircraft, or boats to hunt or harass wildlife, the department feels that unmanned aircraft should be specifically called out and added to this rule.

WAC 220-413-100 Mandatory report of hunting activity.

Two proposed amendments of WAC 220-416-060 require changing the February 15 deadline date. The proposal to move 12-days of the snow goose hunting season in Goose Management Area 1 (Skagit and Snohomish Counties) would have the goose season ending at the end of February (February 27, 2019). Additionally, the requirement of a mandatory harvest report for goose hunting in Goose Management Area 2-Coast and Inland (Clark, Cowlitz, Grays Harbor, Pacific, and Wahkiakum Counties) has to accommodate goose hunting seasons that can extend to March 10 in some years. To minimize confusion, all waterfowl-related reporting deadlines would be changed to March 20.

WAC 220-413-180 Special closures and firearm restriction areas.

Reasons for supporting the rule include expanding mountain goat hunting opportunity; accommodating both firearm restriction needs and wildlife conflict mitigation; and adding flexibility to hunting seasons when restrictions are no longer necessary.

WAC 220-414-060 Muzzleloading firearms.

The Fish and Wildlife Commission requested that the department reach out to the hunting public and get their opinion on the use of modern cartridge primers on muzzleloading firearms during muzzleloader season. Deer and elk hunters were polled, and the majority of the respondents were in favor of allowing the more modern primers.

WAC 220-414-080 Hunting—Hunter orange clothing requirements.

This proposal is meant to increase safety. Turkey seasons in the past did not overlap with modern deer or elk firearm seasons. New proposals to control growing turkey populations make it necessary to overlap those seasons. This recommended rule adjustment provides consistency. All other species hunters are already required to wear hunter orange during modern deer or elk firearm season. This proposal adds turkey hunters to that list.

WAC 220-415-010 Deer area descriptions.

The proposed amendments will allow the department to use hunting as a management tool and expands deer hunting opportunity.

WAC 220-415-020 2015-2017 Deer general seasons and definitions.

This proposal provides for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable general deer hunting season opportunities for 2018-2020. In addition, the proposal allows for the use of hunting as a management tool, helps address deer agricultural damage problems, and provides for deer population control when needed.

WAC 220-415-030 2017 Deer special permits.

This proposal provides for recreational deer hunting opportunity and protects deer from overharvest. The proposal would also maintain sustainable deer special permit hunting season opportunities for 2018. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 220-415-040 Elk area descriptions.

The proposed amendments allow the department to use hunting as a management tool and expands elk hunting opportunity.

WAC 220-415-050 2015-2017 Elk general seasons and definitions.

The proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable general elk hunting season opportunities for 2018-2020. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 220-415-060 2017 Elk special permits.

This proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable elk special permit hunting opportunity for 2018. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 220-415-070 2017 Moose seasons, permit quotas, and areas.

We expect the moose population in Northeastern Washington to stabilize or decline over the next few years. Being able to predict whether males (bulls) or females (cows) will be taken in any given hunt is important to managers. Almost all holders of "any moose" permits attempt to take bulls. Accumulated points held in the "any moose" category would be transferred to the new "any antlered bull moose" category; the definition of "antlered bull moose" would require the presence of "visible antlers." Public support for this proposal was high.

Models currently under development by WDFW to understand moose population trajectory require knowing the age of harvested moose. WDFW currently requests successful hunters to extract a tooth and send it to WDFW in a supplied envelope. However, compliance with the currently voluntary request is variable, and response is likely biased. Incorporating this request in rule should increase compliance, increasing the accuracy and precision of our monitoring models.

In response to a hunter's question from 2017, we realized that, unlike other 'muzzleloader hunts' offered for other species, we had not indicated that 'archery' – considered a lesser-capable weapon – could also be used in the muzzleloader season. WDFW received approval from The United States Air Force on this change.

Recent work has strongly suggested that moose have begun declining in abundance in most areas. We also received considerable support from the public for reducing "Youth only" hunts. Most of these specific changes reduce "antlerless moose" permits, particularly in WDFW District 2, where harvest rates have been relatively high. In response to suggestions from Enforcement, we would eliminate the Master Hunter moose permits, which have only been used a handful of times in the past decade, due to the difficulty of finding an appropriate situation. This would reduce expectation among Master Hunters for an opportunity, which, in reality, has rarely been realized.

WAC 220-415-080 2018 Spring black bear seasons and regulations.

The proposed amendments will announce the appropriate season dates, assist in lessening the likelihood of incidental take of grizzly bear, bring awareness to hunters, create stewardship of resources managed by other government agencies, and provide the department with the ability to collect biological samples which further assist managing bear populations.

WAC 220-415-090 2015-2017 Fall black bear hunting seasons and regulations.

The proposed amendments will announce the appropriate season dates, assist hunters by providing opportunities where they exist, assist in lessening the likelihood of incidental take of grizzly bear, bring awareness to hunters, create stewardship of resources managed by other government agencies, and provide the department with the ability to collect biological samples which further assist managing bear populations.

WAC 220-415-100 2016-2017 and 2017-2018 Cougar hunting seasons and regulations.

The proposed amendments will announce the appropriate season dates; assist in minimizing disturbance to ungulates that are already stressed from winter and birthing; minimize confusion and burden on hunters to buy two licenses; allow hunters who are deer and elk hunting to take a cougar through December 15 without having to call the toll free line to determine if the area is open or not; provide the department an earlier timeframe to manage the harvest guidelines; and attempt to minimize potential of exceeding the harvest guidelines.

WAC 220-415-120 2017 Bighorn sheep seasons and permit quotas.

Where bighorn sheep graze frequently on private, agricultural lands, public tolerance for them can be compromised. Because we have no current place to translocate these sheep, a ewe-only hunt is recommended.

The Chelan Butte bighorn sheep population has also grown, providing opportunity for hunters interested in taking rams (we propose a split season, early and late). Because this herd is situated close to small farms and rural residences, the risk of contact between bighorns and domestic sheep and goats is high. One action the department can take to manage this risk is to halt the slow down or halt the growth of the herd through increased provision of ewe permits.

WAC 220-415-130 2015-2017 Mountain goat seasons and permit quotas.

Mountain goat populations are sensitive to harvest of females, but identification of gender in the field is difficult. The department currently provides training videos and pamphlets to successful applicants for mountain goat hunting permits, but has no way of ensuring that these materials are used. The department proposes adding an online gender identification test that permit holders would be required to pass before being allowed to purchase a mountain goat hunting license. A passing score would be 80%, and permit holders could re-take the test as often as needed until they achieved a passing score.

We now have reliable surveys indicating that goats inhabiting the Mt. St. Helens and Mt. Margaret areas are sufficiently abundant to sustain a conservative hunt. Thus, new hunts are proposed in this area.

The conflict reduction hunt in the East Olympic Mountains remains in the proposed WAC revision as of 12/20/2017, but we hope to remove it prior to the March Commission meeting if we have more certainty that the multi-agency translocation project will commence in 2018. If agencies are moving goats from the Olympic Mountains, it would be inappropriate to provide hunters with the expectation that there would be goats for hunters to pursue in those same places.

The department's data suggests that mountain goat hunting in the Goat Rocks area has been sustainable, but almost all mountain goats taken have come from the more accessible portions of the area. Splitting the existing hunt area in two (and allocating permits approximately proportionally) would distribute harvest pressure more evenly among goats in the greater population.

WAC 220-416-010 2015-16, 2016-17, 2017-18 Small game and other wildlife seasons and regulations.

Annual shifts in the calendar require adjustment.

Turkey populations in those GMUs are high, causing crop and property damage. The proposed change will lengthen the fall season to facilitate additional turkey harvest and help mitigate those problems.

The turkey population in Klickitat County is doing well enough to support a general season hunting opportunity. In the past hunting in those GMUs were by draw permit only. The recommended change will do away with the draw permits and opens those GMUs to general season hunters.

A bobcat hunter mistakenly harvested a collared lynx at night last year. It is very difficult to differentiate the two species with artificial light or night vision equipment. The recommended rule change will help conserve the few lynx that exist in the lynx management zones by making it illegal to night hunt in the GMUs that fall within those zones.

WAC 220-416-060 2017-2018 Migratory waterfowl seasons and regulations.

Waterfowl seasons and regulations are developed based on cooperative management programs among states of the Pacific Flyway Council and the U.S. Fish and Wildlife Service, considering population status and other biological parameters. The rule establishes waterfowl seasons and regulations to provide recreational opportunity, control waterfowl damage, and conserve the waterfowl resources in Washington.

WAC 220-440-030 Public Safety Cougar Removals.

WDFW is often called upon to address wildlife conflict issues involving cougar and other species of wildlife. The issues include both public safety and the protection of property. This commonly requires assistance from local citizens who own working dogs (commonly known as hounds), that are especially capable of, and trained for, the detection, tracking, and treeing cougar. Due to broad hunting restrictions, working dogs are limited in access to training opportunities. Working dogs must be kept in peak physical condition in order to be effective. Young dogs require training in order to be of use. The current Public Safety Cougar Removal program was implemented as a pilot and has not been effective in addressing its original intent. Both the Law Enforcement and the Wildlife Programs support this concept. Representatives from The Humane Society of the United States and Conservation Northwest have been involved in creating this proposal and are in support.
