- Other (specify) _____ (If less than 31 days after filing, a specific finding under RCW 34.05.380(3) is required and should be stated below)

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes No If Yes, explain:

Purpose: The purpose of this rulemaking is to regulate the commercial salmon fisheries in Puget Sound. These rules are part of a comprehensive suite of rulemaking packages to implement the new 2022-2023 salmon seasons for Washington State developed through the broader North of Falcon process pursuant to the Fish and Wildlife Commission’s North of Falcon Policy C-3608 for 2019-2023.

The North of Falcon process typically begins in January and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and WDFW representatives. Separate meetings are held with stakeholders—both at a statewide and regional level—to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act, which includes salmon, but other protected species as well, such as Southern Resident Killer Whales.

Stakeholder meetings specific to the Puget Sound fisheries were held in February and March, and the public hearing on the proposed rules was held on June 22, 2022. The comprehensive North of Falcon meeting schedule and the meeting agendas, handouts, and audio recordings of the public meetings are available on WDFW’s website at: <https://wdfw.wa.gov/fishing/management/north-falcon/public-meetings>

While these rules regulate only commercial fisheries, the seasons specified in these rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities in Puget Sound while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and Fish and Wildlife Commission policies are met.

Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery rulemaking package for the 2022-2023 fishery season, and thus substantively replace prior years’ fisheries in Puget Sound. Specifically, these rules replace and supersede the language in these WACs in their entirety:

- WAC 220-354-080 Puget Sound salmon - Closed Areas
- WAC 220-354-120 Puget Sound salmon - Purse seine – Open periods
- WAC 220-354-160 Puget Sound salmon - Gillnet – Open periods
- WAC 220-354-180 Puget Sound salmon - Reef net – Open periods
- WAC 220-354-210 Puget Sound salmon - Beach seine – Open periods

Included in the Fish and Wildlife Commission’s North of Falcon Policy C-3608 for 2019-2023 is a delegation of authority to the Director of the Washington Department of Fish and Wildlife to adopt the implementing regulations, including this rulemaking, resulting from the North of Falcon process.
