EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The pot limit in region 1 has been increased to 50 pots per license following coordination with industry. There is sufficient allocation remaining to accommodate harvest in the Puget Sound commercial crab fishery in regions 1, 3-1, 3-2, 3-3, and 3-4 until further notice. Crab Management Regions 2-West and 2-East will remain closed due to the attainment of the State share. These provisions are in conformity with the last agreed management plans with applicable tribes. Co-management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans.

There is insufficient time to adopt permanent rules. Further adjustment of season structure may be made pending updated harvest data.
