**Effective date of rule:**

**Emergency Rules**

- Immediately upon filing.
- Later (specify) March 29, 2024

**Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?**

- Yes  No If Yes, explain:

**Purpose:** The purpose of this emergency rule is to implement steelhead conservation measures in coastal, Grays Harbor, and Willapa Bay tributaries.

**Citation of rules affected by this order:**

New:  
 Repealed: WAC 220-312-02000I  
 Amended: WAC 220-312-020  
 Suspended:

**Statutory authority for adoption:** RCW 77.04.012, 77.04.020, 77.12.045 and 77.12.047

**Other authority:**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** These emergency rules are necessary to protect wild steelhead stocks. Numerous coastal wild steelhead runs are expected to return below escapement targets as they have the past five seasons and have failed to meet management objectives. Forecasted 2023/2024 coastwide steelhead returns (32,596) are again expected to fall short of escapement goals for wild steelhead in many rivers. The rules contained in this filing are expected to result in a reduction of wild steelhead encounters relative to permanent rules in place and provide added protection for spawning fish and kelts.

There is insufficient time to adopt permanent rules.
