Purpose of the proposal and its anticipated effects, including any changes in existing rules: The proposed rules were developed through the annual North of Falcon salmon season setting process, which began in January 2024, and provide the season schedule for the 2024 recreational fisheries statewide.

These proposed rules regulate the recreational salmon fisheries statewide and are part of a comprehensive rulemaking package to implement the new 2024-2025 salmon seasons for Washington State developed through the broader North of Falcon process pursuant to the Fish and Wildlife Commission's North of Falcon Policy C-3608 for 2024-2028. As such, the seasons specified in these proposed rules are structured in a coordinated manner intended to provide commercial and recreational fishing opportunities while ensuring conservation requirements and management objectives in federal and state laws and regulations, state/tribal harvest management agreements, and Fish and Wildlife Commission policies are met. Even though drafted as amendments to preceding rules, these new amendments function as a coordinated and unitary fishery package for the 2024-2025 fishery season, and thus substantively replace prior years' recreational salmon fisheries. Comments should be considered with that understanding.

The intent of this rulemaking package, once adopted, is to replace and supersede the language in these WACs in their entirety:

- 220-312-020 – Freshwater exceptions to statewide rules – Coast
- 220-312-030 – Freshwater exceptions to statewide rules – Southwest
- 220-312-040 – Freshwater exceptions to statewide rules – Puget Sound
- 220-312-050 – Freshwater exceptions to statewide rules – Eastside
- 220-312-060 – Freshwater exceptions to statewide rules – Columbia River
- 220-313-060 – Puget Sound salmon – Saltwater seasons and daily limits
- 220-311-020 – Coastal salmon – Puget Sound public fishing piers – Restricted fishing areas
- 220-300-220 – Geographical definitions – River mouth definitions

WDFW is proposing *specific revisions* to these rules to describe the seasons and dates for these fisheries for 2024. However, all of the provisions encompassed within the WACs listed above are available for public review and comment, and WDFW will consider all public comments received on this rulemaking.

Reasons supporting proposal: The proposed rules were developed through the annual North of Falcon salmon season setting process, which is an extensive stakeholder engagement process to develop and analyze various season options for recreational, commercial, and tribal fisheries for the current year. It is named "North of Falcon" as it includes setting the salmon seasons for the area north of Cape Falcon, Oregon, which is located at 45 degrees N. latitude.

The North of Falcon process typically begins in January and consists of government-to-government meetings involving the National Marine Fisheries Service (NMFS), treaty tribes, and WDFW representatives. Separate meetings are held with stakeholders—both at a statewide and regional level—to review preseason run size forecasts, NMFS guidance relative to allowable impacts for species listed under the Endangered Species Act (ESA), which includes salmon, but other protected species as well, such as southern resident killer whales. Meeting schedules and information can be found on the agency's website at: <https://wdfw.wa.gov/fishing/management/north-falcon>

Ocean fishery seasons are developed through the Pacific Fishery Management Council process, which is concurrent with and part of the broader North of Falcon process, with meetings in early March and early April. Ocean fishery options are also analyzed and considered in light of potential ESA-listed species impacts and state/tribal harvest agreements and are also reviewed for consistency with the Pacific Salmon Treaty.

Regulatory Fairness Act and Small Business Economic Impact Statement

Note: The [Governor's Office for Regulatory Innovation and Assistance \(ORIA\)](#) provides support in completing this part.

(1) Identification of exemptions:

This rule proposal, or portions of the proposal, **may be exempt** from requirements of the Regulatory Fairness Act (see [chapter 19.85 RCW](#)). For additional information on exemptions, consult the [exemption guide published by ORIA](#). Please check the box for any applicable exemption(s):

This rule proposal, or portions of the proposal, is exempt under [RCW 19.85.061](#) because this rule making is being adopted solely to conform and/or comply with federal statute or regulations. Please cite the specific federal statute or regulation this rule is being adopted to conform or comply with, and describe the consequences to the state if the rule is not adopted.

Citation and description:

This rule proposal, or portions of the proposal, is exempt because the agency has completed the pilot rule process defined by [RCW 34.05.313](#) before filing the notice of this proposed rule.

This rule proposal, or portions of the proposal, is exempt under the provisions of [RCW 15.65.570](#)(2) because it was adopted by a referendum.

This rule proposal, or portions of the proposal, is exempt under [RCW 19.85.025](#)(3). Check all that apply:

This rule proposal, or portions of the proposal, is exempt under [RCW 19.85.025](#)(4) (does not affect small businesses).

This rule proposal, or portions of the proposal, is exempt under RCW _____.

Explanation of how the above exemption(s) applies to the proposed rule: The department is exempt from the requirements of RCW Chapter 19.85 because the proposed recreational fishing rules do not regulate small businesses; rather, the department's proposed fishing rules open fishing seasons, and provide fishing opportunity, that would otherwise be closed. In doing so, the proposed rules regulate individuals who undertake recreational fishing activities. The proposed statewide recreational rules simply govern the time, place and manner for individuals who want to enjoy the recreational fishing opportunities provided. While recreational fisheries contribute to statewide or local economies, and while those economic effects are part of the department's consideration in opening fisheries, the economic effect of different possible recreational fishery packages does not constitute the direct imposition of any regulatory compliance costs on small businesses that supply recreational fishers, or that indirectly benefit from the State's decision to open such fisheries

(2) Scope of exemptions: *Check one.*

- The rule proposal is fully exempt (*skip section 3*). Exemptions identified above apply to all portions of the rule proposal.
- The rule proposal is partially exempt (*complete section 3*). The exemptions identified above apply to portions of the rule proposal, but less than the entire rule proposal. Provide details here (consider using [this template from ORIA](#)):
- The rule proposal is not exempt (*complete section 3*). No exemptions were identified above.

(3) Small business economic impact statement: *Complete this section if any portion is not exempt.*

If any portion of the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

- No Briefly summarize the agency's minor cost analysis and how the agency determined the proposed rule did not impose more-than-minor costs. _____
- Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses and a small business economic impact statement is required. Insert the required small business economic impact statement here:

AMENDATORY SECTION (Amending WSR 23-13-072, filed 6/14/23, effective 7/15/23)

WAC 220-312-060 Freshwater exceptions to statewide rules—Columbia. The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

(1) **General Columbia River rules:**

(a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.

(i) Anglers must comply with the fishing regulations of the state in which they are fishing.

(ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.

(iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.

(b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.

(c) Salmon and trout handling rules provided in WAC 220-310-100 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-310-100 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).

(d) From Buoy 10 to the ((Washington/Oregon border)) Highway 395 Bridge in Pasco:

(i) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.

(ii) Barbless hooks are required for salmon and steelhead.

(e) Open year-round unless otherwise provided.

(f) Year-round night closure for salmon and steelhead fishing from Buoy 10 to Priest Rapids Dam.

(2) **Rules by river section:**

(a) Fishing from the north jetty is permissible when Marine Area 1 or Buoy 10 areas are open for salmon, and the limit and minimum size restrictions follow the most liberal regulations if both areas are open. Only single point barbless hooks may be used for salmon and steelhead.

(b) **From a true north-south line through Buoy 10 to the Megler Astoria Bridge:**

(i) The Youngs Bay Control Zone is defined as those waters southerly of a line originating on the Oregon shore at the east end of the seawall at the Warrenton Fiber log yard (approximately river mile 10.1) northeasterly through green navigation buoys 29, 31, 33, and 35A to the center of the Astoria-Megler Bridge abutment adjacent to, and north of the ship channel, and continuing southerly in line with the center of the Megler Bridge span to the Oregon shore.

(ii) The Youngs Bay Control Zone is closed to recreational angling from August 1 through September 15.
