**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

**Reasons for this finding:** This rule is needed to limit impacts on ESA Threatened bull trout which stage in the reservoir near the mouth of the South Fork Tieton River. Recent estimates of bull trout spawning have indicated population declines and this measure is intended to decrease mortality from incidental bull trout catch. There is insufficient time to adopt permanent rules.
