EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule is necessary to open chum retention in portions of Marine Areas 13 and Kennedy Creek.

In-season estimates of chum returns to Puget Sound indicate that there are sufficient returning numbers to allow for limited recreational harvest in the areas listed and presents low risk of negatively impacting natural stocks returning to South Sound.

These actions have been agreed to with co-managers. There is insufficient time to adopt permanent rules.
