## ACKNOWLEDGMENTS

Development of the Washington State Wildlife Action Plan (SWAP) Update was a multi-year collaborative effort involving many advisors and technical experts from the Department of Fish and Wildlife, as well as other organizations. We want to acknowledge and thank the following individuals in particular for contributing their time and expertise to this important work, and for helping us to ensure that it is of high quality and value.

### WASHINGTON DEPARTMENT OF FISH AND WILDLIFE (WDFW)

**Project Coordinator and content editor:** Lynn Helbrecht.

**Content development – Leads:** Special appreciation goes to the staff who took on a lead role in writing, editing and organizing information for species or habitats: Gary Wiles (SGCN Mammals), Joe Buchanan (SGCN Birds), Lisa Hallock (SGCN Amphibians and Reptiles), Anne Marshall and Dayv Lowry (SGCN Fishes), Ann Potter and Derek Stinson (SGCN Invertebrates), Dave Hays (Habitats of Greatest Conservation Need) and Jeff Azerrad (Habitats of Greatest Conservation Need and Chapter 7-Implementation).

**Content development – Supporting Role:** Preparing drafts and providing review for SGCN material was provided by Wildlife program staff: Chris Anderson, Wendy Connally, Steve Desimone, Erin Duvuvei, Joe Evenson, Gerry Hayes, Don Kraege, Jeff Lewis, Anita McMillian, Ruth Milner, Chris Sato, Mark Teske, Joanne Wisniewski, and participants in the Wildlife Program Workshops in 2013 and 2014. Fish program staff included Jennifer Blain, Bruce Baker, Bruce Bolding, Chris Donley, John Easterbrooks, Taylor Frierson, Andrea Hennings, Brad James, Dayv Lowry, Robert Pacunski, Kurt Stick, Mike Ulrich and Patrick Verhey. Habitat program staff included Keith Folkerts and Julie Henning.

**Map product development: Leads -** Andy Duff, Janet Gorrell, Kevin Kalasz, John Pierce and Shelly Snyder. GIS Support provided by Gretchen Blatz, Brian Cosentino, Jane Jenkerson, Lori Salzer, Christopher Treg and John Talmadge.

**Leadership from Wildlife Program Managers:** Eric Gardner, Penny Becker, Cynthia Wilkerson, Kevin Kalasz, John Pierce and Nate Pamplin provided leadership and guidance throughout the SWAP development process as well as content development and review of draft materials.

**Editing assistance and overall project support:** Provided by Chris Sato, Colleen Stinson and Matthew Trendera.

**Advisors:** Members of the SWAP Cross Program Advisory Team provided guidance and feedback throughout the project: Margen Carlson, Keith Folkerts, Janet Gorrell, Julie Henning, Anne Marshall, Erik Neatherlin, John Pierce, Timothy Quinn, Dave Ware (retired), Eric Gardner, Penny Becker, Bruce Thompson (retired), Chris Sato, and Cynthia Wilkerson.

**NATURAL HERITAGE PROGRAM, WASHINGTON DEPARTMENT OF NATURAL RESOURCES:** Technical advice and hands-on assistance provided by managers and staff of the Washington Natural Heritage Program staff was invaluable for several components of the SWAP Update. Rex Crawford, John Fleckenstein and Joe Rocchio provided expertise and data in developing Chapter 4 - Habitats of Greatest Conservation Need.

**WILDLIFE DIVERSITY ADVISORY COUNCIL:** The Wildlife Diversity Advisory Council, convened by WDFW to provide guidance to the agency on wildlife diversity issues, provided important perspective and advice at various points throughout the project. Special thanks go to the SWAP committee members: Cal Anderson, Fred Koontz, Joe Miles, and Ingrid Rasch.

**ECOADAPT:** Jessi Kershner led the team at EcoAdapt to assist WDFW with integrating climate sensitivity information and projected climate impacts into the SWAP. Jessi prepared draft material for Chapter 5 and Appendix C and provided input regarding the approach and content for these components of the SWAP.

**NORTH PACIFIC LANDSCAPE CONSERVATION COOPERATIVE:** Provided funding support for the Climate Change integration work conducted as part of the SWAP Update.
